Marigolds

Any Three 10c Pkts. 25c

Sunset Giants—Mixed Colors

Until "Gigantic Orange" came along, this was the largest strain of Marigolds. And is still grand and glorious. Pkt. 10c; ¼ oz. 25c.

Crown of Gold The foliage, stems and golden flowers lack the usual Marigold odor. Pkt. 10c; ¼ oz. 25c.

Golden Eagle Gold medal winner. The double flowers are luminous gold. Pkt. 10c; ¼ oz. 30c.

Early Sunshine This is an EARLY strain of the beautiful Dixie Sunshine. Pkt. 10c; ¼ oz. 40c.

Harmony "Delightfully Different." The Scabiosa-like flowers of yellow are bordered rich maroon-red. Semi-dwarf. Pkt. 10c; ¼ oz. 20c.

Mexican Orange The bushy plants are heavily laden with unique semi-tubular petaled flowers of bright orange. Pkt. 10c; ¼ oz. 30c.

Gold Medal Blend Many new tall types. Shades of gold, orange and yellow predominating. The "ALL-IN-ONE" mixture you've been looking for. Pkt. 10c; ¼ oz. 25c; ½ oz. 40c.

Guinea Gold Brilliant golden orange, carnation-flowered. Pkt. 10c; ¼ oz. 25c; ½ oz. 40c.

Orange Prince Deep golden orange. Very large. Tall. Double. Pkt. 10c; ¼ oz. 25c.

Lemon Queen Equal to Orange Prince but yellow. Tall. Double. Pkt. 10c; ¼ oz. 25c.

Royal Scot Mahogany and gold in symmetrical stripe. Tall. Double. Pkt. 15c; ¼ oz. 30c.

Marigold Musings

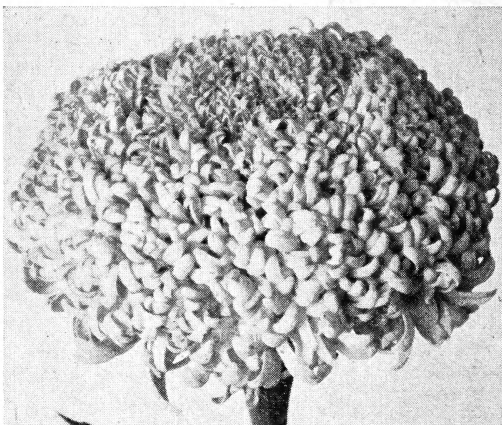

Such marvelous improvements have been made among the various types of Marigolds by expert hybridizers that the results are almost unbelievable.

Marigolds as cut flowers. Few flowers keep longer after being cut. For days and days Marigold blooms look as fresh as though in the garden. Change water often.

Ever notice how Marigolds stand the early light frosts? They stay with you longer than most annuals. Calendulas and Delphiniums are also among those present to the last. Most Marigolds described as double show a per cent of semi-double and maybe a few singles. But the semi-double flowers are also very pleasing.

Sow thinly after ground warms up. Plants should be from 1 to 2 feet apart after final thinning or transplanting.

Marigold Mission Giant

A new personality in Marigolds. Plants of medium height, bear giant chrysanthemum-type blooms on long stems which start way down near base of the plant.

Each plant will produce 8 to 12 stems of good length for cutting. The side branches produce as large blooms as main stem.

The large blooms are almost a perfect ball, and very firm. Two weeks ahead of most African types.

Mixed colors of medium and golden orange, and bright lemon. This blend of the new Mission Marigolds at: **Pkt. 15c; 2 Pkts. 25c.**

SPECIAL: One packet each Mission and tall Pot O' Gold Marigolds for 25c.

Delightful DELPHINIUMS [Perennial]

Delphiniums, called "Dels" for short,
You now can have—most any sort.
New colors, forms and types we see,
Pacific Giants, most like a tree.

An amazing and delightful variety of blues,
many in combination with lilac, lavender,
heliotrope, and near-pink.

And the types or forms are as varied as the
colors, many blossoms with a double set of
petals instead of just one, the two sets often
different in color.

It's fascinating to grow in masses the vari-
ous colors, all harmonizing, the way they
come in my grand and glorious "**SPECIAL
MIXTURE**," including the cream of all kinds
listed on this page. Sow outdoors early in
spring. Plants live over winter, increase in
size and vigor.

J. D.'s Special Mixture

Seed from best exhibition plants. Many
types, colors and shades, including Wrexham
and Pacific Giants. Mixed colors only; Pkt.
25c; ¼ oz. \$1.00.

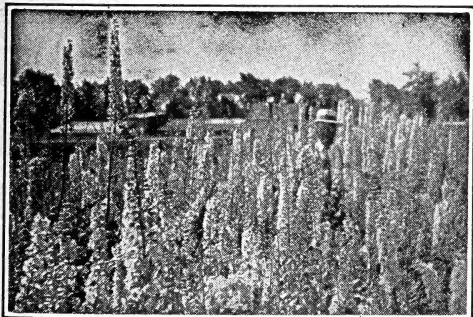

Belladonna Improved Turquoise-
flowers. Pkt. 15c. blue, single

Bellamosum Improved Similar
donna but color of flowers intense, rich deep
blue. Pkt. 15c. to Bella-

Gold Medal Hybrids Splendid
range of
colors from pale lavender to indigo-blue.
Pkt. 15c; ¼ oz. 50c.

Wrexham or Hollyhock Type

A grand giant flowered strain similar in type
to the Pacific Giants. Splendid mixture of all
shades and tints that come in this type. Pkt.
25c.

DELPHINIUM PLANTS

Pacific Giants, Mixed. First time we have had
Pacific Giant plants to offer. Many bloomed
last year. Supply not large. Order early.
Prices: 7 plants, \$1.00; 16 for \$2.00; 26 for
\$3.00, Prepaid. (Mixed Colors Only.)

NOTE: Delphiniums are very hardy. They
begin growth real early in spring. Is best
to set these plants out when you do your
early gardening.

Pacific Giants Mixed

Huge flowers beautifully spaced on well
branched spike. Thin woody stems. Practically
all double. Mildew resistant to a large degree.
Doubtless the most spectacular strain to date.
**Mixed colors, in charming variety of shades
and tints.** Pkt. 30c.

Pacific Giants in Colors

White (Galahad) Lavender Shades
Clear Light Blue Dark Blue Shades

Any these 4 colors, Pkt. 35c.

SPECIAL: One Pkt. each the 4 for \$1.00.

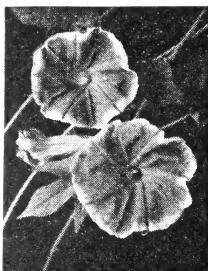

PESTER THE PESTS. Only insect I know
of that works on Delphinium is some sort of
red spider, louse or other "varmint" very ef-
ficient in "mass production." Shoot him in
the eye first time you see him—shoot his wife
and children, too—with some tobacco solu-
tion. For mildew on plants, dust with fine
powdered sulphur.

All Dels should bloom the second year.
But here's some news that's good to hear.
If sow the seed in EARLY spring,
Some blooms you'll pick first year, by jing.

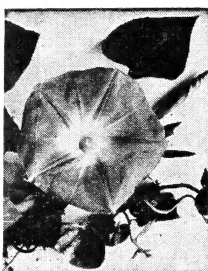

Magnificent
Mammoth

Meandering MORNING GLORIES

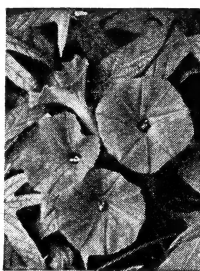

(These small illustrations are, of course, much reduced in size)

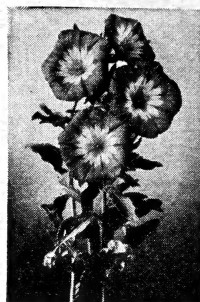

Cornell

Heavenly Blue

Scarlett O'Hara

Dwarf

Mammoth "Heavenly Blue"

The best known and still the most popular giant Morning Glory.

Clark's Early Strain, developed at Denver, is the kind we offer. The seed is produced here, a mile above sea level, thus retaining this early blooming trait. It's immense. And beautiful. Pkt. 10c; 3 pkts. 25c; ½ oz. 50c; oz. 90c.

New Mammoth "Cornell"

Color, red with white border, the colors of Cornell University—good old Cornell!

"Cornell" is an early bloomer, sometimes beginning when plants are 2 feet high, continuing as the vines romp, ramble and meander till frosts. Pkt. 10c; 3 pkts. 25c; ½ oz. 60c.

New "Crimson Rambler"

Ruby red with white throat. We might call this "Cornell in Reverse". A true Convolvulus or "twiner" of vigorous growth and free blooming habit. Large. Pkt. 10c; 3 pkts. 25c; ¼ oz. 30c; ½ oz. 55c.

"Scarlett O'Hara"

You guessed it. The color is RED—bright rosy red.

The five veins radiating from its throat in the form of a 5-pointed star, are still more brilliantly colored.

The large flowers, 3½ to 4 inches across, are freely produced on fast growing vines which start blooming in about 65 days after germination.

The blooms remain open longer than other Morning Glories. Nice for pots also, if pinched back.

Scarlett O'Hara was a Gold Medal winner in the All-American Trials for 1939.

The seed of this recent popular introduction is still scarce. But we have reduced prices from last season.

PRICES FOR 1941:
Pkt. 10c; ¼ oz. 30c; ½ oz. 50c; oz. 90c.

SPECIAL: Any three 10c packets Morning Glories (your choice of kinds, alike or assorted) for 25c.

Total Value, 50c. Special 35c for all.

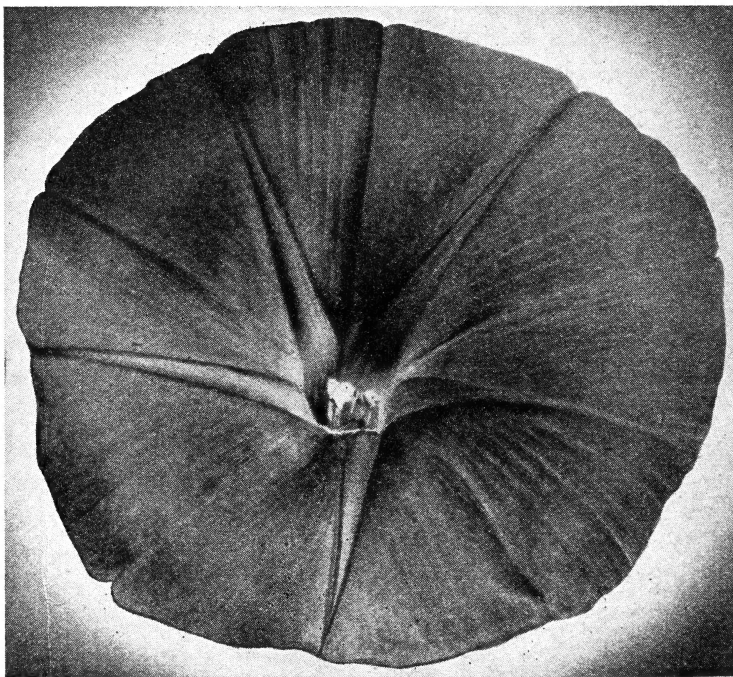

French's Mammoth White

At last, here it is! A new breath taking Mammoth White Morning Glory.

Easily described, because this new Morning Glory treasure is a sport from the well known Mammoth "Heavenly Blue."

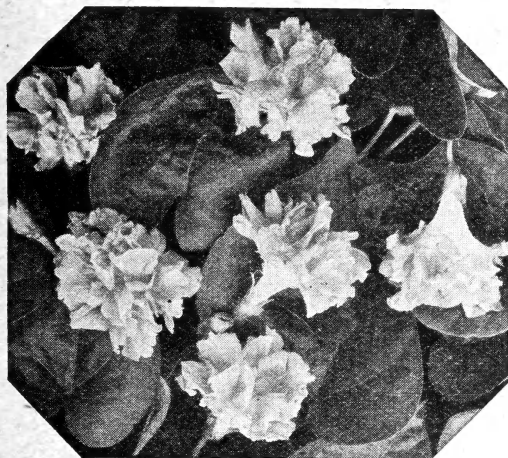

Same in every way, except white instead of blue. An easy growing, rapid climber, ideal for growing WITH the blue or any of the new Mammoth reds. The ribs show a trace of blue, at close range. The effect is pure white at a short distance.

Not only is this new White the equal of any other large white to date, but it is also EARLIER. Pkt. 25c.

Scarlett O'Hara

MORE MORNING GLORIES

Double "Rose Marie"

Deep rose double flowers of medium size. A climber, tho not so rank growing as single kinds. But a novelty of real merit. "Delightfully different." Pkt. 10c; 3 pkts. 25c; ¼ oz. 30c; ½ oz. 50c.

The Morning Glory, "Crimson Rambler,"

Is something new, a rapid ambler.

The color's red, much like "Cornell,"

But throat is WHITE—just watch it sell!

Japanese Colors run from white through all shades of blue and red, from palest pink to darkest reds and purples. The leaves are very ornamental. Pkt. 10c; 3 pkts. 25c; oz. 30c.

Tall Mixed Always popular for fences and screens, etc. Fine mixed Pkt. 5c; oz. 20c.

Scarlett O'Hara Morning Glory—

You'll find, another page, our story.

It's here right now, not gone with wind.

Our seed is good, it never sinned.

Dwarf Mixed Bushy growth good for beds or borders. Mixed colors. Pkt. 5c; oz. 20c.

NOTE Very few people seem to have seen and enjoyed this DWARF Morning Glory. A bush of this is delightful; and a row or border is a sight for sore eyes.

That Morning Glory, "Heavenly Blue."

It can't be beat for lovely hue.

The strain we sell is EARLY CLARK.

The tone is light, instead of dark.

"Mile-A-Minute" Vine

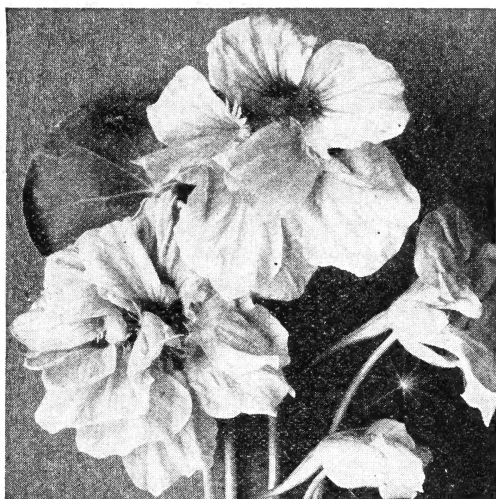

Also called **Alamo Vine**. Not so fast as name implies, but runs 15 to 20 feet. Foliage finely cut. The 1½ in. blooms are creamy white. Sounds interesting. Pkt. 10c; ½ oz. 25c.

The "Mile-A-Minute" vine is new.

At least up north it's grown by few.

Has done right well of late they say,

For those who live "Down Mexico Way."

Sweet Scented Double Nasturtiums

Any 3 Pkts. 25c

Golden Gleam The original sweet scented double Nasturtium. Large Pkt. 10c; oz. 20c.

Mahogany Gleam Dark Mahogany red of unusual color. Large Pkt. 10c; oz. 25c.

Orange Gleam The deep glowing golden orange is a stunning color. Large Pkt. 10c, oz. 25c.

Salmon Gleam A delicate golden salmon. Large Pkt. 10c; oz. 25c.

Scarlet Gleam Immense blossoms of fiery orange scarlet. Large Pkt. 10c, oz. 20c.

Double Gleam Hybrids A grand and glorious mixture of salmon, golden yellow, orange, scarlet, cerise, crimson and gold flushed scarlet. Large Pkt. 10c; oz. 20c.

Golden Globe A vivid golden yellow. The plants are dwarf and compact. Flowers semi-double. Good for edging rockery and beds. Large Pkt. 10c, oz. 20c.

Double Gem Mixture Dwarf, compact plants. The sweet-scented, semi-double flowers cover the little plants in shades of yellow, orange, scarlet, crimson, salmon, cream, maroon. Large Pkt. 10c, oz. 20c.

Fantastic "Fantasy" Zinnias

The most fascinating new type introduced for years. Fantasy is a very informal happy-go-lucky, shaggy type. Mixed colors. **Pkt. 10c; ¼ oz. 30c.**

Fantasy Zinnia—"Wild Fire"

A dashing, dazzling separate color in the "Fantasy" type. This vivid "Ragged-Red" brightens up the garden like nobody's business! **Pkt. 10c; ¼ oz. 45c.**

Since Grandma's flower garden days,
 The Zinnia's changed, in many ways.
 The kinds that last so long when cut,
 Are "Tiny Tim" and Lilliput.

Zinnia "Collections"

At our very special prices of 7c a Pkt. in lots of 7 or more (your choice of any kind we list) you can make up your own money saving Zinnia Collections.

Extra Early Zinnia "Gypsy"

Exceedingly EARLY, double, long stems. Color deep rich burnished orange. Often blooms 40 days after seed sown outdoors. Pkt. 10c; ¼ oz. 40c.

Gaillardia-Flowered Zinnias

Another type, with flowers of medium size on good stems. Colors range through mellow tones of rose, pink, bronze, yellow, orange, and lavender combinations of these colors. Mixed colors. Pkt. 10c; ¼ oz. 30c.

Scabiosa-Flowered Zinnias

This once popular Zinnia we have discontinued, for the excellent reason that the HOWARD CRESTED was developed from Scabiosa and Dahlia-flowered types, and the CRESTED is ever so much larger and finer than Scabiosa. So, plant Crested now in place of Scabiosa.

WHY IS A WEED?

How many times have we wondered why in the world there should be such things as weeds, also insect pests. I'm still wondering about the latter, but have a very firm conviction that the weeds serve a good purpose in one way at least.

If weeds didn't grow as they do, the most of us would just naturally neglect the important matter of cultivating our plants. We might say we wouldn't, but I'll just bet we would.

Our gardens need frequent stirring of the soil, both between the rows and among the plants, and it is in getting after the weeds, or trying to get the drop on them, that we give our plants this much needed cultivation, letting air in to the roots, putting the food elements, that the soil contains, into such shape that the plants can get hold of and utilize them.

Zinnia—"Crown O'Gold"

Crown O' Gold Zinnia

An outstanding novelty. Each petal of the flower is overlaid with deep golden yellow at the base, shading to lighter yellow at the tips. Pkt. 10c; ¼ oz. 35c.

Mexicana Zinnias

Small double and semi-double flowers, mixed colors from yellow to mahogany-red, many being two-toned. Plants about 9 inches tall. Delightfully different from other Zinnias. Pkt. 10c; ¼ oz. 35c.

A lady customer of ours
Calls Zinnias the "bill-board" flowers.
I think the statement's right well said,
She hit the nail plum on the head.

Lilliput Pastel Shades

Shades of apricot, peach, creamy yellow, delicate salmon, light rose and orchid. Early blooming. Pkt. 10c; ¼ oz. 30c; ½ oz. 50c.

NEW ICELAND POPPIES (Nudicaule) (Hardy Perennial)

While Iceland Poppies are hardy perennials, they flower the first year from seed, blooming almost as quickly as the annual sorts.

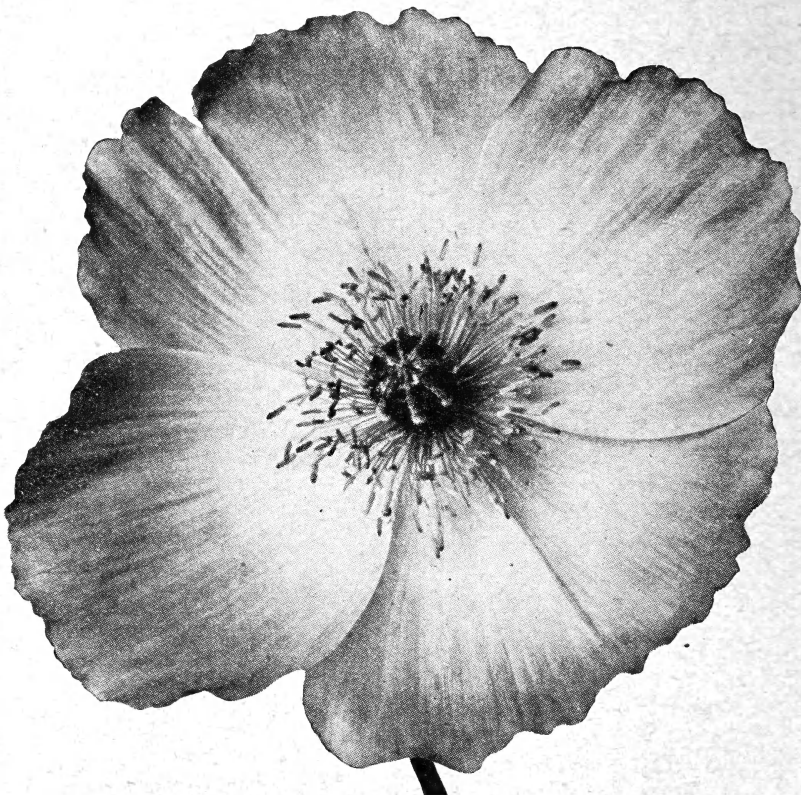

They are of graceful neat habit with bright green fern-like foliage, formed in tufts from which issue slender stalks about 15 inches high, bearing their brilliant flowers in endless profusion. Most useful for cutting, for which purpose pick when in bud. If the seed pods are picked off, they continue in flower the entire season.

We have had Iceland Poppies begin blooming with the Tulips and at least a few in bloom every day after until November.

Don't forget—the more you pick them, the more they bloom. Don't let seed pods form.

They remain ever green throughout the winter, coming in to bloom early the following spring.

Iceland Poppies are valuable also in a hardy border or in a permanent rock garden.

Poppy, Yellow Wonder—Extra large flowers, extra long stems.

Imperial Jewels From originator's description. "Dazzling as a rainbow, shimmering in summer mist. Scintillating as the Imperial Crown Jewels. The finest, most outstanding Iceland Poppy yet produced.

"Wonderful shades of yellow, orange, pink, salmon, rose, red, and pastel shades, hues of apricot, buff and chamois.

"Flowers beautifully frilled and fluted many semi-double, and all very large. Stems very long, wiry and strong." (He's got something there—J.D.)

This glorious mixture, Pkt. 25c; ½ oz. \$1.00.

"Pastel Shades" From New Zealand. A special mixture of pink, rose and pastel shades. Very lovely, and fine for cutting. Pkt. 25c; ½ oz. \$1.00.

El Monte Deep tangerine-orange, distinct in color from other lovely varieties. Tall. Large Pkt. 15c; ½ oz. 60c.

Yellow Wonder The showy, cup-shaped flowers, 4 inches across, are rich lemon-yellow, changing to bright buttercup-yellow with lighter centers.—The color is made especially vivid by the silky sheen of the broad, round petals.

Plants are strong growing and very free flowering. Long stems about 2 feet high. Showy in the garden and lovely for cutting. Pkt. 15c; ½ oz. 60c.

The Iceland Poppy, dainty, frilled,

Doth thrive in heat, or weather chilled.

It blooms and blooms, then blooms some more,

And smiles at you, near your back door.

Sanford's Giants A new giant strain with flowers of wonderful substance carried on strong stems 2 to 3 feet long. Many of the blooms measure 5 inches in diameter. The range of colors is particularly fine, including many lovely delicate shades and combinations of tints, all in one mixture. Pkt. 15c; ½ oz. 70c.

Sunbeams (Mixed.) This is the result of a cross between the Shirley and Nudicaule types. Charming shades of orange, salmon, maize and other tints. Pkt. 10c; ½ oz. 40c.

IMPORTANT ANNOUNCEMENT

Our seed is grown for us by the specialists who developed these Wilt Resistant Strains.

Since practically every variety listed on this page is Wilt Resistant, we no longer list the two strains.

You simply pay the price of the old strains that were subject to wilt and get the new improved strains so far as they have been produced to date.

Special Aster Prices

All Asters on this page at: Pkt. 10c; 3 pkts 25c; 4 or more pkts. at 8c each. You sort up whatever packets you wish at these prices.

Two Super-Giant Asters

Los Angeles The color is a lovely pure shell pink, the first of this new race of Asters, resembling in form the Giants of California, but larger and earlier. The flowers are deep and full centered.

El Monte Similar to Los Angeles, but the color is deep glowing crimson. The flowers, extremely large and fluffy, are borne on heavy non-lateral basal branched stems. El Monte is early blooming for such a giant variety.

This illustrates the Beauty, Royal and Peony-Flowering Types of Asters

Early Beauty Similar to "Boulderado Beauty" in every way, but an earlier strain. Not quite so tall and large. Type shown above.

Golden Sheaf Deep yellow double, wilt resisting. Not very yellow, but the best near-yellow to date.

Long's Super-Mixed Asters

A "Long-Season" mixture of all types and colors on this page, some early, some medium, some late.

Peony-Flowered Asters

Giant Mammoth Strain

Originator's Description. A superb florist strain, with immense, fully double flowers resembling the Beauty type, borne on long, stout non-lateral stems. The compactly placed petals give substance and keeping qualities to the flowers. The plants are 2 1/2 to 3 feet tall, blooming in season with the Giants of California.

"South of the Border"

As you may know, some of our finest flowers were originated "Down Mexico Way".

Funny thing about Dahlias. Originated in Mexico, they took a "Round Robin" route to land in the United States, right back near where they started from, but much improved, due to courtesies shown them in a foreign land. Yes, in brief, that's the story. Dahlias were sent first to Europe, and after being worked over and improved by expert hybridizers there, came to us, not from Mexico, but from "over there".

Cosmos and Zinnias were both discovered in Mexico. And some, if not all, our **Marigolds** can be traced back to our neighbors "South of the Border".

What interests me immensely is that our grand and glorious **HEAVENLY BLUE MORN-ING GLORY** trekked from Mexico to Denver, Colorado, doubtless in a very round about way. Lucky for all of us that Prof. Perry L. Clark, then teaching in Denver schools, and intensely interested in botany, took over the task of improving this favorite flower.

Heavenly Blue Morning Glory was large and lovely all right. But rather late blooming. Just how the desired and desirable end was accomplished, I don't know. But Prof. Clark spent years in developing his special strain, retaining the enormous size, as well as en-trancing beauty, yet inducing the plants to begin blooming several weeks earlier.

This is the strain we are fortunate in hav-ing from year to year. I should have men-tioned that one factor in securing early bloom-ing was and is our mile high altitude. High altitude always tends to produce earliness.

Grow Clark's early strain at low altitude a few years in succession, and it will "unlax". Blooming date will be later. That's why it is important to buy and plant not just Clark's early strain, but seed of this strain that is grown right here under the mile high condi-tions that helped make it early in the first place. (Boulder is 32 miles from Denver.)

"North of the Border"

Comes now a new Mammoth White Morning Glory, **NORTH** of the border. Discovered in New Mexico by Mr. French. See page 4.

Thanks for Cooperation

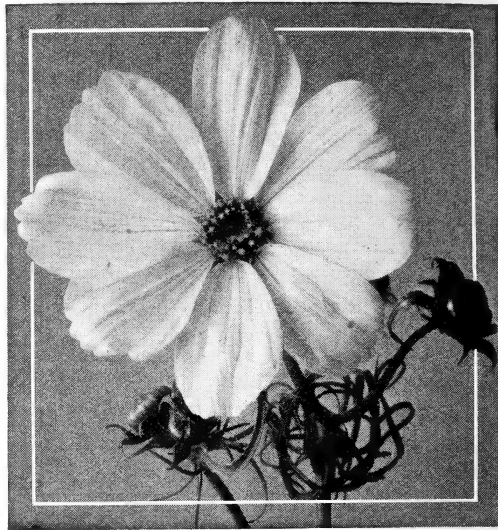

Time was when we sent out catalogues, cus-tomers would sit down and make out orders plainly and definitely from catalogue listings. Thus we were able to handle many orders with minimum confusion and loss of time.

But in recent years there is a growing "see the manager" tendency. Far too many pay little attention to conditions of sale, or make out orders so that any of our well trained order clerks can go right to work and fill the order quickly and efficiently.

Too many want orders referred to me or Ev for special attention, or want us to make out the orders. This jims up our working hours, which are plumb full at best, and de-lays filling of orders.

Now I hesitate to mention these problems. I'm afraid some will miss the point entirely and say we are not appreciative of orders, and if we don't like it we can lump it, and lose their business. However, most folks, once informed, will cooperate to insure "the great-est good for the greatest number."

Finally, please be assured that we will go as far as we can to help you if and when you can't work out your order from catalogue. One thing we can't do is to go into plant-ing and culture details. We give many tips and pointers in catalogues, and 24 full pages in "Glad Gossip" booklet, sent free with a Glad order of 50c or more. And that's about as far as we can go and remain alive, sane, and solvent.

Colorful Cosmos

The Cosmos, too, has made great strides. Unsightly spots its verdure hides. "Sensation" is the super strain, From it more pleasure you will gain.

Don't Kill the Cops

If Mr. Toad is found in your garden, don't harm him, but treat him as a friend, for he is your friend, arresting and executing garden criminals.

If your sweet peas or pansies seem sick and you find lady bugs on them, don't jump at conclusions. It's lice or aphids that have in-jured your plants, and the lady bugs are there trying to exterminate the pests.

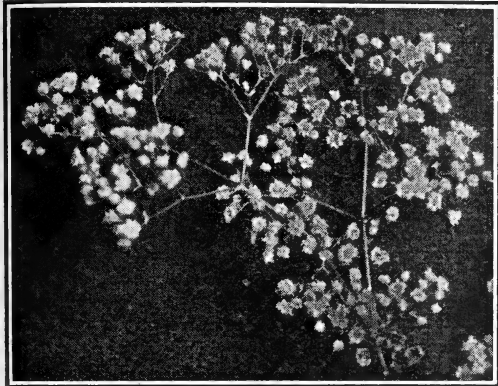

GYPSOPHILA

(BABY'S BREATH)

Graceful plants of light fairy-like growth, covered with tiny white flowers. In great demand for combining with sweet peas and other cut flowers. Note that there are two kinds, the annual and perennial.

ANNUAL WHITE. F47. Blooms first year from seed. Good plan to sow this every few weeks so as to have a constant supply to use with cut flowers. Pkt. 10c; oz. 25c.

ANNUAL PINK. F47½. Same as above, but dainty pink. Pkt. 10c; ½ oz. 25c.

PERENNIAL WHITE DOUBLE. F049. Color, white. About one-fourth come double flowers. Balance may be pulled out if not desired. Best kind for drying for winter. Pkt. 25c.

Let Baby's Breath, called "Gyp" for short, Among your hardy plants cavort. The annual strains in white and pink Burst into bloom quite soon, I think.

African Daisies

GOLDEN AFRICAN DAISY. F098. Annual. Orange-gold with black zone around center. Pkt. 10c; ¼ oz. 25c; ½ oz. 40c.

AFRICAN DAISY HYBRIDS. F099. Similar to the Orange, but many colors, mixed. Pkt. 10c; ¼ oz. 25c; ½ oz. 40c.

Mexican Fire Bush (Kochia)

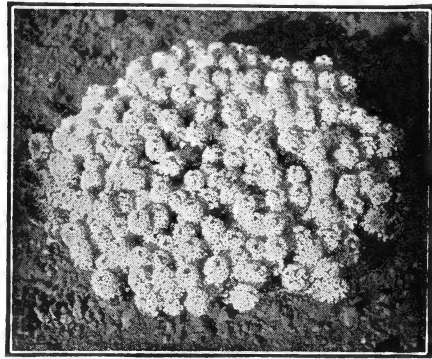

F73. Also called Summer Cypress. The moss-like green foliage turns to deep carmine in fall. Makes inexpensive showy hedge. Improved giant strain. May be thinned to several feet apart, as each plant will stand alone, like an evergreen. Or, if a foot or so apart, will make a hedge. Plants may be trimmed and shaped like the perennial hedges. Pkt. 10c; ½ oz. 25c.

That "Fire Bush" from Mexico Is far from bad, as hedges go. Looks nice behind a flower bed. As summer wanes, the plants turn red.

Hardy Perennial Blue Salvia

SALVIA AZUREA. 3 to 4 feet. Sky-blue flowers. Will bloom first season from seed sown early. Lives for years. Can be transplanted in early spring. Seed: Pkt. 10c; ½ oz. 60c; oz. \$1.00.

SWEET ALYSSUM

Alyssum Procumbens, Carpet of Snow

Alyssum's a border plant,
Both on the level or a slant.
The cost of seed is never much.
It gives your beds a finished touch.

"CARPET OF SNOW." F3½. Lowest growing of all Alyssums. Only 2½ to 3 inches high. Each plant, if given 6 or 8 inches room, spreads out like a pancake nearly smothered with small white flowers. Pkt. 10c; ¼ oz. 25c; ½ oz. 40c.

NEW "VIOLET QUEEN." One of the leading novelties in recent years. Violet Queen alyssum plants are dwarf, compact, neat in habit, free flowering. The sweet scented flowers are a very rich deep shade of violet. Pkt. 15c; ¼ oz. 40c.

ALYSSUM "LITTLE DORRIT." F4. Compact plants 4 to 5 inches tall, covered with small, sweet scented white flowers. Pkt. 10c; ¼ oz. 25c; ½ oz. 40c.

ALYSSUM "BASKET OF GOLD." (Perennial.) Brilliant golden yellow Alyssum. 9 to 12 in. Pkt. 10c; ¼ oz. 35c.

Painted Daisies

These Painted Daisies (Single Annual Chrysanthemums) are splendid for cutting.

DARK COPPER, yellow zone.

WHITE, scarlet zone.

GOLDEN CHAMOIS, scarlet zone.

WHITE, yellow zone.

DEEP PURPLE, yellow zone.

ALL KINDS, MIXED.

Your choice: Pkt. 10c; any 3 for 25c; ¼ oz. 20c; ½ oz. 35c.

The Clarkia makes a compact plant,

Its blooms cause folks to rave and rant

Because indoors they last so long,

They make your life one glad sweet song.

Clarkia Elegans Double Brilliant

Godetia

Dwarf Double

AZALEA-FLOWERED

These wonderful flowers rival the loveliest of potted and petted Azaleas. Sow the seed out in the garden, same as with asters. Thin to nearly foot apart. Each plant makes a compact bush about a foot high. The big, beautiful pink blossoms with deeper centers just about hide the plant. It's a revelation. You'll be surprised—and delighted. May also be grown in pots. Annual. Pkt. 10c; ¼ oz. 30c; ½ oz. 50c.

Godetia—Tall Double Gladiolus-Flowered

(ALSO CALLED SATIN FLOWER)

Most beautiful hardy annual, producing an abundance of brilliantly-colored flowers that are attached at intervals along the stem and open from bottom to tip of stem, something like the Gladiolus. Can be cut in bud and allowed to open indoors.

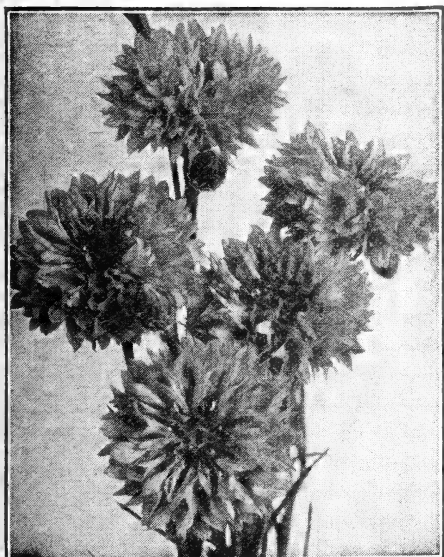

The lovely flowers are illustrated at the right. 

Finest double varieties in

CRIMSON PINK
LAVENDER WHITE
ALL COLORS MIXED.

Choice, any color, or mixed: Pkt. 10c; 5 pkts. 40c; ¼ oz. 25c; ½ oz. 40c. (You may include in the 5 for 40c the lovely Azalea-flowered Dwarf, above.)

Godetias—longies and in shorts—
We have in many colored sorts.
The dwarf Azalea-flowered type,
And tall, their blooms without a stripe.

Bachelor's Button (Centaurea Cyanus)

Double BACHELOR'S BUTTON

They are easy to grow and bloom continuously. Just sow the seed outdoors where you want the plants, and thin to 3 to 12 inches. Make several sowings for long season of bloom.

PRICES: Any color, or Mixed. Pkt. 10c; ¼ oz. 25c; ½ oz. 40c; oz. 75c.

The flowers of these new varieties are very large, fully double, and the colors intensified.

BLUE BOY. Rich blue. Fine for cutting.

BLACK BOY. Large blackish maroon.

PINKIE. Deep pink. Keeps well cut.

RED BOY. Deep red. Oh, Boy!

SNOW MAN. "What's in a name?" White.

MANY COLORS MIXED. Super fine.

COLLECTION 35c
One Pkt. each the 5 colors for . . .

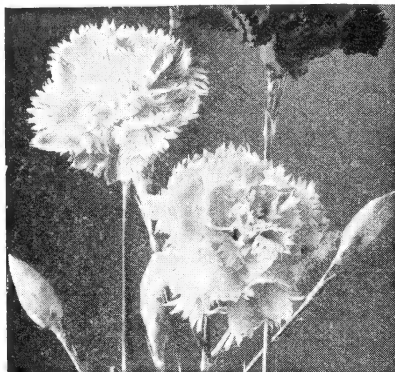

The Bachelor Buttons grandma grew
Had petals short and mighty few.
You grow them now with little trouble—
So tall and strong, and fully double.

Annual Mallow (Lavater)

F015. A showy annual, about 2 feet high, producing large cup-shaped shrimp-pink flowers. Sow in May and thin to 10 inches. Pkt. 10c; ¼ oz. 25c.

Shasta Daisy

ALASKA. An improved strain of this popular Daisy. Large white flowers on tall, stout stems. Pkt. 10c; ¼ oz. 30c.

Carnations thrive best under glass,
But can be grown with "garden sass."
In open garden they are grand,
And with protection, winters stand.

Money Plant

Lunaria

Beautiful flowers are followed by round, flat, silvery seed pods, prized for winter bouquets. Biennial, but blooms first year if sown early. **Packet 10c; 1/4 oz. 30c.**

NOTE: Be careful in ordering. Do not confuse this with Linaria or Baby Snaps.

You ask about that "Money Plant."

'Tis not real money, I will grant.
But if real money keeps ■ shrinking,
We'll hafta grow our own, I'm thinking.

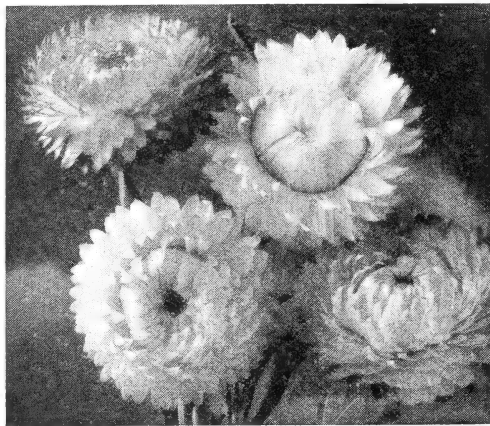

Giant Hardy Carnation

CHABAUD'S GIANT CARNATION. The new strain. (About 85 per cent come double.) Plants thick-set; stalks stiff, bearing large double blossoms. Not so large as the greenhouse kinds, but **surprisingly large if disbudded.**

Bloom about 6 months from sowing. Start indoors for summer blooming. May be sown

also in open garden. Give winter protection.
Colors: Red, Rose-pink, Salmon-rose, White.
Prices for any separate color: Pkt. 15c; 2
 pkts. 25c. **Mixed colors:** Pkt. 10c.

MARGUERITE CARNATION. F10. Double flowers with lovely fringed petals; delightfully fragrant; wide range of charming colors. Very hardy. Pkt. 10c; 1/4 oz. 25c.

"Straw Flowers"

(**Helichrysum.**) Very ornamental in garden, easily grown from seed sown outdoors. Particularly valuable for winter decoration of vases and everlasting bouquets.

Important: Cut the flowers when partly open just as shown in this picture. Don't put them in water but hang them up dry in dark.

Prices: Any color, or all mixed: Pkt. 10c; 3 for 25c; $\frac{1}{4}$ oz. 30c; $\frac{1}{2}$ oz. 50c; oz. 90c.

GOLDEN GLOBE. F6G. Large, golden yellow.
SILVER GLOBE. F6S. Chaste, silvery-yellow.

ROSE-CARMINE. F6R. Shades of rose.

"CHRISTMAS RED." F6CR. Very popular for Christmas decorations.

ALL KINDS MIXED. F6M. These and other colors all in one mixture.

I wonder who put straw in flowers.

You hang them up in darkened bowers.
They keep their girlish charms and forms
Through winter's cold and blasting storms.

AGERATUM

One of the most useful and pleasing summer annuals, the plants being literally covered from early summer until frost with a sheet of bloom.

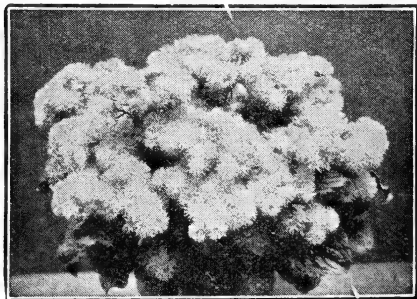

Flowers stand rain and sun without fading. The dwarf sorts are most used and very satisfactory. Seed may be sown outdoors, but earlier blooms may be had by starting some of the seed indoors.

BLUE BALL. Free-blooming, deep rich blue. Plants compact, 8 to 10 inches tall. Pkt. 10c.

BLUE CAP. (New Miniature.) Very dwarf and compact, large bright blue flowers. Pkt. 15c.

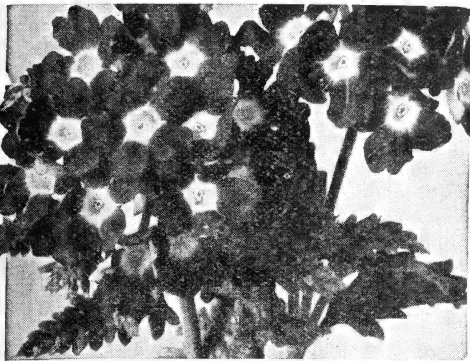

DWARF WHITE. Imperial strain. About 3 inches.
Pkt. 10c.

DWARF MIXED. Nice mixture of good dwarf varieties. Pkt. 5c.

Ageratum, Blue Ball, Dwarf Variety

Just give me time to change my socks.
I'm off to see the Hollyhocks.
The double forms that winters stand,
And now an ANNUAL, it's grand.

New Annual Canterbury Bells

Annual **Canterbury Bells** bloom from seed in less than six months. Plants 2 to 2½ feet tall, each having 6 to 8 spikes of blooms.

Also, the plants continue to bloom for quite a long time. Where seasons are short, start the seed indoors and transplant to garden.

ANGELUS BELL. Deep-rose. Pkt. 15c.

LIBERTY BELL. Violet-blue. Pkt. 15c.

WEDDING BELL. Pure white. Pkt. 15c.

MIXED COLORS. Pkt. 15c; ½ oz. 25c.

Any 2 Pkts., 25c. Any 3, 35c

Hardy Biennial Canterbury Bells

Good idea to sow seed of both the Annual and the Biennial strains, so you can enjoy the Annuals this season and the Biennials next year.

I think the "Cup and Saucer" type of hardy Canterbury Bells is the most pleasing.

Annual Wall Flowers

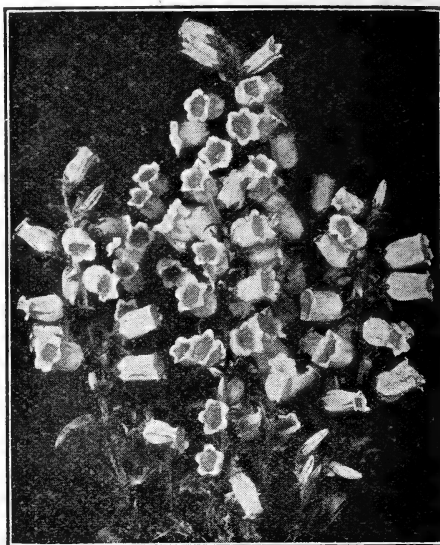

Easy to grow and bloom in a few months from seed sown in the open garden. They have beautiful fragrant flowers in many bright colors.

WALL FLOWER. "Gold Standard." Deep double golden yellow flowers. Plants about 2 feet tall. Very showy. Pkt. 20c.

WALL FLOWER, DOUBLE MIXED. Many pleasing colors. Pkt. 15c.

Royal Sweet Sultans

Annual Canterbury Bells

Sweet Williams

Johnson's Giants

An extraordinary strain. Plants robust and tall. Flowers very large. The range of colors includes shades and combinations not to be found in other strains. The peculiar and delicate markings on the flowers are most unusual and attractive. Bloom second year from seed. After first crop of blooms about gone, cut plants off near ground and you should get a second display of blooms on shorter plants. Pkt. 10c; ¼ oz. 30c; ½ oz. 50c.

STANDARD VARIETIES SWEET WILLIAMS SINGLE MIXED. Pkt. 10c; ¼ oz. 15c.

DOUBLE MIXED. (Not all come double.) Pkt. 10c; ¼ oz. 35c.

ROYAL SWEET SULTANS

(*Centaurea Imperialis*)

Finest of all Sweet Sultans for cut flower purposes. Charming for garden also.

The beautiful, sweet-scented, artistic-shaped flowers are borne on long strong stems and when cut and put in water will keep in good condition for several days.

Seed may be sown in the open garden after ground warms up, but longer season of bloom will be enjoyed if plants are started indoors.

Baby Snapdragons

(LINARIAS)

Lovely Linaria—"Fairy Bouquet"

This is a hardy annual with small, dainty flowers resembling miniature Snapdragons. It makes a nice cut flower and the clumps form an interesting feature of the annual border. Blooms in about 8 weeks from seed. Thin to 10 inches. Fine also for rock gardens.

HYBRIDA EXCELSIOR, MIXED. Colors range through crimson and gold, pink, mauve, dark blue and chamouis and rose. Pkt. 10c; ¼ oz. 25c; ½ oz. 40c.

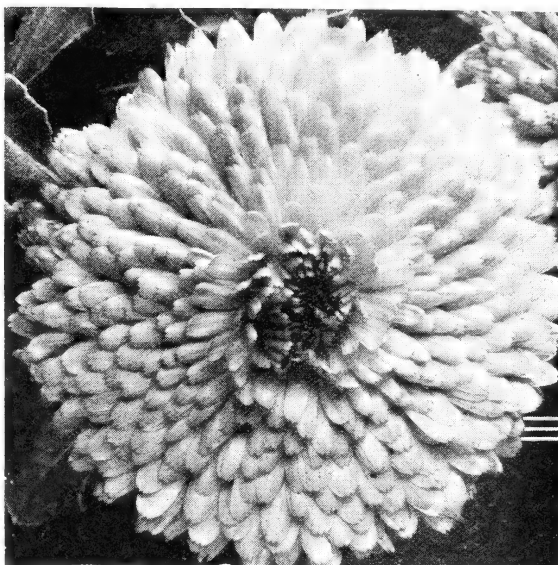

FAIRY BOUQUET. In mixed colors like Maroccana hybrids, except that this new strain is greatly improved by more compact growth, and extra large flowers of a great variety of distinct colors. Very quick to bloom. Pkt. 15c; ½ oz. 40c.

Linarias, called "Baby Snaps,"

Are liked by all, yes, even saps.

They bloom while you are reading books,

Or, on the air, hear "Baby Snooks."

Calendula Campfire

Calendula is hard to kill.

If seeds on ground you chance to spill,

You'll soon see plants coming up

That bloom in spite of frisky pup.

Finding Room for Flowers

Maybe you can find more room by spading up some of the neglected corners or waste places. Often a few feet along both sides of the lawn can be used—less grass and more flowers. As a rule, it is better to use such space, stolen from the lawn, along the sides or lot lines, rather than to have beds in the body of the lawn. However, this is a matter of personal preference and fitting the flower beds to the individual yard.

Often flowers can be worked in around the shrubbery. Tulips and other fall bulbs are especially adapted to this handling. Planting in borders or in groups, according to room and arrangement of shrubbery, will produce pleasing effects.

Then, again, drastic pruning of trees will help wonderfully in making two flowers bloom where but one bloomed before. Or, maybe none bloomed, because of too much shade.

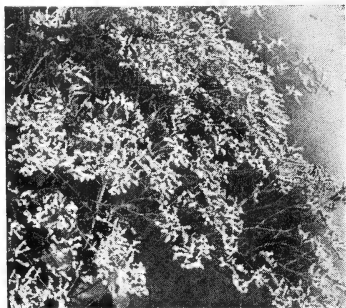

"Irritating the Garden"

One summer evening a caller at a Boulder home asked the little girl who came to the door: "Is your father home?" "Yes," replied the little miss, "he's in the back yard irritating the garden." Of course, the caller found this man sprinkling the garden with the hose.

But the little girl may not have been so far off after all, in using the word irritating for irrigating. It is a fact that many gardeners do just about that—squirt just a little water on the garden and lawn which does little more than irritate the growing plants.

Tiny plants do need just a little light sprinkling at a time and often. But when plants are larger they want a good thorough soaking once in a while, then want to be left alone a few days, maybe a week. Is far better to give a good watering, then cultivate as soon as ground is dry enough, than to just keep irritating the garden with daily light sprinkling, which brings the feeding roots to the surface instead of keeping them at work lower down.

Statice (Sea Lavender)

STATICE (Sea Lavender). *Latifolia*, light blue. Fine for combining with other flowers, especially with Glads. Seed: Pkt. 10c; ¼ oz. 5c.

Field Grown Statice Roots (2 for 50c) (5 for \$1.00) (12 for \$2.00). Prepaid.

Schizanthus

Butterfly or Fringe Flower

This is one of the airiest and daintiest flowers imaginable, especially adapted to bordering beds of taller flowers and those of a heavier growth. The seeds germinate quickly and come into bloom in a few weeks from sowing. The flowers completely obscure the foliage, making the plant a pyramid of the most delicate and charming blooms.

Good Mixed. Pkt. 10c; ½ oz. 30c.

Schizanthus Grandiflora "Butterfly Mixture"

Our Butterfly Mixture, containing a full range of all shades and color combinations, is the best all around strikingly bright mixture, with large flowers beautifully marked, on compact, free-flowering 12 to 15-inch pyramidal plants. **Finest strain to date.** Pkt. 20c.

Hardy, Fragrant Violets

Here's one answer to that question. "What will grow and thrive in the shade?"

These hardy violets grow in shade, partial shade, or out in the open, but do best in partial shade. The plants increase in size or number by sending out short runners which take root and make new plants around the original one, soon forming quite a nice clump. When the clumps get too large or too thick they may be taken up, pulled apart and reset.

The blossoms are of violet color, often delicately fragrant. I sell these violets in clumps. Each clump can be easily separated to make several dozen plants. Or, you can separate the clump into a few smaller clumps for quicker results.

SPECIAL Half clump 50c; Clump 80c; 2 clumps \$1.40. prepaid in U.S.A.

Our Violets, a mass of blue,

Would like to hike from us to you.

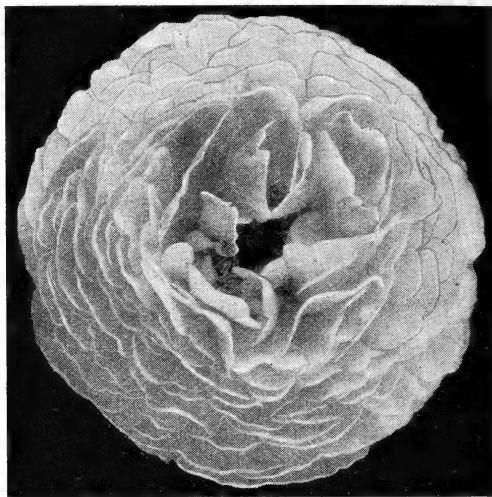

This year we make a special price,

So you can fix your yard up nice.

Beauties From Bulbs

(And Such Funny Looking Bulbs)

Ranunculus Bulbs Nothing produces a brighter effect than a bed of Ranunculus. The flowers are wonderfully good for cutting also. Plants about a foot high with flowers two inches or so in diameter, many of them double, in a variety of bright and pleasing colors.

The bulbs are even funnier in appearance than those of the Anemone. They look like dried up bird's feet and of no value whatever. You'd swear they would not grow, much less produce beautiful flowers. But just plant them out in the garden any time after the ground warms up and see them do their stuff. Set these little "crowfoot" bulbs about two inches deep, pressing them firmly in the soil. (The "claws" are bottom of bulb.) Thrive best in partial shade.

Space the bulbs 5 or 6 inches apart. Just cultivate and water moderately. **Warning!** Too much water may cause failure. Keep soil moist but not very wet. Easy to grow. In fall take up the bulbs, store in dry place away from frost. Replant the next spring.

TECOLOTE GIANTS. Largest and most magnificent strain. Award of Merit, Mass. Hort. Society 1933 and 1934. 10 for 50c; 25 for \$1.00; 100 for \$3.60, prepaid.

Anemone Bulbs Plant the bulbs any time from early spring to middle of June. The plants grow 8 to 12 inches high. Several flower stems come from a small bulb. Flowers are bright colors in mixture, some single, a few double, and several inches in diameter. For best results, plant in partial shade.

The Anemone bulbs are very peculiar. Dry, hard and apparently lifeless, they respond quickly when planted two inches deep in any good garden soil. Set the bulbs 4 to 6 inches apart. In fall store in dry place. Plant in spring.

MONARCH DE CAEN. Very favorite strain. Immense brilliant flowers. 10 for 40c; 25 for 90c; 100 for \$3.00, prepaid.

Anemones from queer bulbs spring.

Their blooms would please a queen or king.

So colorful! Magnificent!

When cut, 'tis days before they're spent.

"That ain't the way I heerd it"

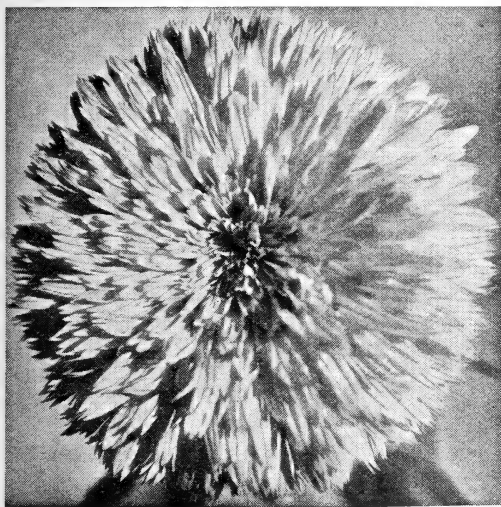

Way I heerd it, feller sees 'nother feller paintin' his house and sez, "Whatcha spendin' all that money on yer house fer? Don'tcha know you could take a lotta joy rides fer the costivity of that paint?"

T'other feller sez, "Little beds of flowers, little drops of paint, make a place a home, outa one that ain't."

New Bachelor Button What! No "Kolored Kiver"?

Jubilee Gem Compact plants, about 12 inches high, literally covered with vivid double blue flowers. The foliage is different from all other Bachelor Button or Cornflower, forming a mass of bright green, contrasting well with the blue flowers. Fine for edgings, borders, rock gardens and pots. Also, make lovely bouquets when cut, and keep well. Pkt. 10c; 3 pkts. 25c.

"Chrysanthemum-Sunflower"

Rich golden yellow flowers, 5 to 8 inches, fully double, that rival gorgeous dahlias in size and splendor. Petals beautifully quilled, giving the appearance of a glorious chrysanthemum. The plants, 5 to 7 feet tall, have many branches, each branch carrying a gorgeous golden flower. Special stock from our own plants, re-selected for years. Price for Re-Selected Seed. Pkt. 10c; ½ oz. 40c; oz. 75c.

Annual Lupins Easy to grow annuals with long flower spikes bearing pea-shaped flowers. Do well in partial shade. Do not confuse these with the larger, perennial Russell Lupins. **Dark Blue, Rose, and Mixed** colors. Pkt. 10c, 3 pkts. for 25c.

No, we didn't forget to provide a real catalogue cover for this booklet.

For years we sent out a 64 page catalogue like this and everybody seemed happy about the whole thing. Orders were plentiful and profitable. Well, relatively speaking. It does not take much profit to satisfy us.

Came the great color wave. A glorious wave, too. And it's going to wave for a long, long time, bigger and brighter as time goes on. We are for it. With reservations. We are for it, if some one else pays the color bills.

Theoretically, however, nobody needs to pay the color bills. Colors produce more business, so that the extra orders and extra profits pay the extra cost of colors. Halp! Halp! Where am I?

I'm not arguing for or against colors. But assuming that "colors or no colors" you will order about as usual, we have lowered many prices, right in the face of higher operating costs and higher prices in general. We feel that the saving in our "Kolorless Kiver" will give us the breaks. But if have guessed wrong—well, that would be just too bad—or bad for two—Ev and me.

One thing I do know. All the colors in the world could not make the seeds we send you one bit better. I do know also that the quality of our stocks are far above the average. Not the only super good seeds, but right up at the top with best obtainable.

You've probably heard that joke. "An optimist is a guy who thinks he can grow flowers or vegetables like the pictures in the catalogues." I might add, and like some of the descriptions in catalogues, mine included. We just naturally talk about how fine these things can be, and are, grown under very favorable conditions. If this be treason—shucks, you knew this all the time!

Substitutes for colors. Many customers keep our catalogues for years, not because our catalogue would win in a beauty contest, but because we give a good many helpful hints about gardening. And, as you may have noticed, we run in some talks that have little or nothing to do with making gardens or money.

Ev and I believe in helping you to cultivate a few smiles as well as your garden. Maybe, though, I ought to label some of my jokes.

Getting back to "Kolored Kivers". Even if I wasn't sold on color work, who am I to say one word against this work? Many of our customers are printers and engravers. They must eat. As I have tried to make clear, my blessing goes with good color work. Can I help it if we crave to be different once in a while, for a change?

The cost of color work decreases as quantity of catalogues increases. And vice versa. Some firms print a million or more catalogues a year. Our edition much less. So maybe we better let you use your imagination after reading descriptions.

"That ain't the way I heerd it"

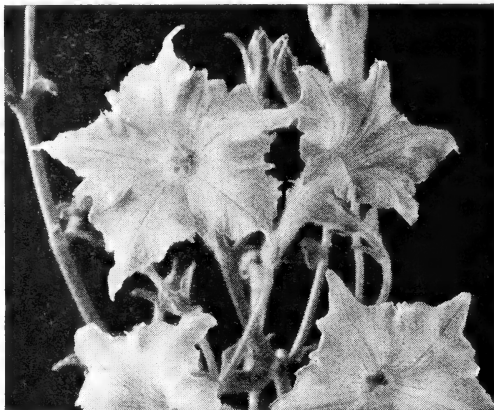

Way I heerd it wuz, one feller sez to t'other feller. "That there whoppin' big blue Mornin' Glory is the climinest thing I ever seed.

"One day I was standin' clost to a row of this rapid climin' wonder. I wuz a restin' an' leanin' on my hoe—kinda dreamin' like.

"Fore I knowed it, one of them vines reaches over, winds itself 'round my hoe handle, an' then comes a climbin' up my arm, takin' a loop 'round my neck, then 'round my ear.

"I wuz bare headed, an' when I say bare I mean bare. That vine couldn't git a foot holt on my bald head, so started to run down my back. 'Bout then I come to, and made my escape." Yep, that's the way I heerd it.

A Petunia "Gone Hollywood" 'That's Right-You're Wrong'

PETUNIA—"HOLLYWOOD STAR"

Hollywood Star is unique in form of flower, a five pointed star. The color is a charming shade of rich rose, with amber throat. An early, prolific and continuous bloomer. **Pkt. 15c.**

Petunia "Topaz Rose"

One of the most vivid colored of the rose Petunias. The color is a fiery rose, delicately suffused with gold, strongly contrasted with the topaz throat.

TOPAZ ROSE is extremely free blooming, providing a brilliant display of color throughout the season. Sow seed right out in the garden, or, for earlier blooms, start seed indoors. **Pkt. 15c.**

SPECIAL: One Pkt. each Topaz Rose and Hollywood Star for 25c.

A BIG LITTLE BOOK

New Pronouncing Dictionary of Plant Names

Price, 25 Cents Prepaid

A 64-page booklet, 4x6 inches, just right for pocket—if you have a pocket.

More than the Title Implies. In addition to latest authentic pronunciation, a short, snappy definition also follows each name.

Botany students, and others who are on speaking terms with Latin, may already know the answers, or many of them. But this "Big Little Book" is a life saver for me and others. And we don't have to paw through and mangle a great big dictionary to find these plant names. As Andy would say, it's all right here in a coupla nutshells.

Not many, if any, who read this would make such a bad mistake as Mrs. Newlyrich, when she instructed her gardener to set out a bed of Salivas, with a border of Spittoonias all around the bed. But we doubtless do have our embarrassing moments.

"Yes, we have no musas today" may sound goofy, but turn to page 42 in the Big Little Book.

If a man has no hair, we say he is bald. Botanically speaking, we might refer to him as glaber. See page 29. Or if his pate is landscaped like my own, we might refer to it as candidissimus, semi-glaber. Page 14.

But why say more? For only 25 cents you can own a copy of this booklet. Just send us two bits and your copy will come romping to your fireside, prepaid.

You don't need to wait until the second year to enjoy Delphinium blooms from seed sown right out of doors in EARLY spring. Many plants will send up lovely spikes of blooms the first year. But, of course, still bigger and better the second season and thereafter.

Size No. 1 Gladiolus bulbs are NOT required to produce wonderful prize winning spikes. We have many customers, some way up in Canada, who win year after year with entries grown from our No. 2 size bulbs. Some grab off the blue and red ribbons with spikes grown from No. 3 bulbs. Of course, No. 1 bulbs also good.

Pike's Peak is NOT the highest mountain peak in Colorado. Long's Peak and a dozen or so others are still higher. As peaks go, however, Pike's is SOME PEAK (14,108 feet above sea level). It is the peak most highly advertised and best known. Long's Peak is 14,255 feet high.

Long's Peak was NOT named after me (JD). It was named before me, year 1819, in honor of Col. S. H. Long. Sorry. I'd like to own Long's Peak and bring it home for a pet. It is now, and has been, and will be, about 40 miles northwest of Boulder.

I do NOT plant seeds in the moon. But I will say there is often something uncanny the way gardeners succeed who do keep an eye on the moon. I've always noticed that such gardeners also keep an eye on their plantings, working when others are tearing around like mad in autos, to no purpose.

There is NOT a crying need for so many new creations in the vegetable and floral world. True, we want SOME new and improved varieties from time to time. But looks to me hybridizers and introducers have gone hog wild and expect planters to do the same.

What we do need is to know how far to go in taking on some new kinds each year. But that's our tough luck. Pretty hard to tell. As for Ev and myself we are going to keep posted best we can and add just a few of really noteworthy new varieties each season. And keep up the quality of the tried and true kinds of known value. "The best is good enough for our customers."

We do NOT mail our special Summer Iris List to all who receive our Spring catalogue. This wonderful list of most of the world's largest and best Iris, is sent to those who sent us Iris orders the past three years and others who ask for it, or whose friends ask us to send the list. Iris list is mailed late in June.

It is NOT true that seeds and bulbs from high altitude should not do well in lower altitudes. On the contrary, high altitude stocks usually do better than any other in lower altitudes, other things being equal. Low altitude stocks may not do so well first year in high altitudes, but this is not a case of "vice versa."

"You're Right—I'm Wrong"

In some verses, scattered through this catalogue, I did strain a point. My excuse is I wasn't smart enough to make certain words rhyme otherwise. Isn't there some alibi under the head of "Poetic License"?

Four O'Clocks do NOT make the best hedge, everything considered. But for an annual, they do make a fine hedge. Mexican Fire Bush (Kochia) also great for hedge. Can be trimmed.

Maybe Salpiglossis does NOT appeal to one's "proboscis". But it was the only word that came to me when I needed that rhyme.

Pacific Giants Delphinium are NOT so tall as California Redwoods. But grow some yourself and enjoy their size and beauty.

Maybe "The nicest lawn that I have seen" was NOT grown from our seed. If so, charge that boner up to self hypnotism, or something.

Peas with zippers may sound fantastic. Maybe I'm just "ahead of my time". I'm for 'em.

Salmon Glory Phlox

PHLOX DRUMMONDI GIGANTEA TYPE (ANNUAL)

The flowers are unusually large for Phlox, up to 1¼ or even 1½ inches across not uncommon with ordinary culture. (Thin to 12 inches for best results.)

The color is pure salmon-pink, with creamy-white eye, one of the most beautiful combinations ever seen. **Pkt. 20c.**

NEW AND NEAR-NEW

To sort out and discard most "new creations", because they are not enough better than existing varieties to justify naming and introducing—there's the rub.

There isn't much to get excited about in new varieties for 1941. But we have added a few, some offered for the first time by any firm, others not really new, but not listed before by us.

Two New Alyssums. "Violet Queen" takes place of Lilac Queen. "Basket of Gold" (perennial) very nice and useful.

In Asters we have added the EARLY BEAUTY, separate colors and mixed. This is similar to our "Boulderado Beauties"—not quite so large, but earlier. Very good. And "Ostrich Feather" asters in place of Crego.

Mammoth White Morning Glory. That Long Longed for super WHITE is here. Page 4.

Our Zinnia pages have always carried just about all the really worth while kinds. Now we have added that new giant red, "Will Rogers". Another red, entirely different type, "Wildfire". And cutest of all little red Zinnias, "Tiny Tim".

The two new sensational Zinnias will be found on page 32. And, of course, the Crown of Gold, Pastel.

Pacific Giant Delphiniums now in separate colors in addition to our wonderful mixture. Note our new reduced prices on most all Delphiniums. See Delphinium page.

Our Sweet Pea list has always included the cream of Spencer varieties. New additions are Bridal Veil, Flag Ship and Welcome. Nifty names, don't you think? The varieties are as nifty as their names. Often the reason your WHITE Sweet Pea seeds rot instead of grow, is that you planted white seeded variety. Plant "Bridal Veil", a blackseeded white kind.

Two New Petunias, "Topaz Rose" and "Snowball", will "fill a long felt want".

Four New Marigolds. You couldn't miss it—Super Gigantea Double Orange on page thirty-three. If you like the large and lovely "Sunset Giants" (and breathes there a man, or woman, who doesn't) then you will have a fit when you see this whale of a Marigold, which appears to me to be developed from the Sunset Giant strain by painstaking selection the past few years, to segregate the color, increase the size, make the plant more sturdy, and pep up the blooming date.

Another new addition to our Marigold list fills a Long felt want. It is the lovely "Dixie Sunshine" type and color, but an EARLIER strain, called "Early Sunrise".

New DWARF "Pot of Gold" Marigold. Plants are dwarf and compact, about 14 inches tall. The blooms are large and fully double. Color is deep golden orange. Blooms several weeks ahead of most all other kinds. See page 33.

"Mission Marigolds", newest addition to our list, resemble Chrysanthemums. See page 2. (Illustration reduced.)

For more than thirty years in all,

We've sent our booklets, spring and fall.

Three million catalogues we've mailed,

In all that time, few seeds have failed.

Larkspur "Cockade Salmon Pink"

New Annual Larkspurs

We have always kept up with the "besta, if not the mosta" in improved Annual Larkspurs. See back cover page. Note our "Dandy Dozen" for 1941. See Page 64.

Our two new Larkspurs for this season are "Cockade Salmon-Pink" (Macdonald) and "Super Majestic Rose-Pink" (Ferry-Morse Co.).

Here's a snapshot of Cockade Salmon-Pink as it grows for the originator. This strain is compact, and produces 10 to 12 heavy base branching spikes of florets. The individual flowers are fully double, closely spaced on a 16 to 18 inch spike. The color is especially beautiful under artificial light. **Pkt. only 10c.**

The most sensational Larkspur of the year is that glorious SUPER MAJESTIC ROSE-PINK. See back cover page for field photo. Note the full size he-man almost lost in this "Floral Forest". Our seed of this overwhelming giant beauty is grown for us by the originator. Price reduced to 15c.

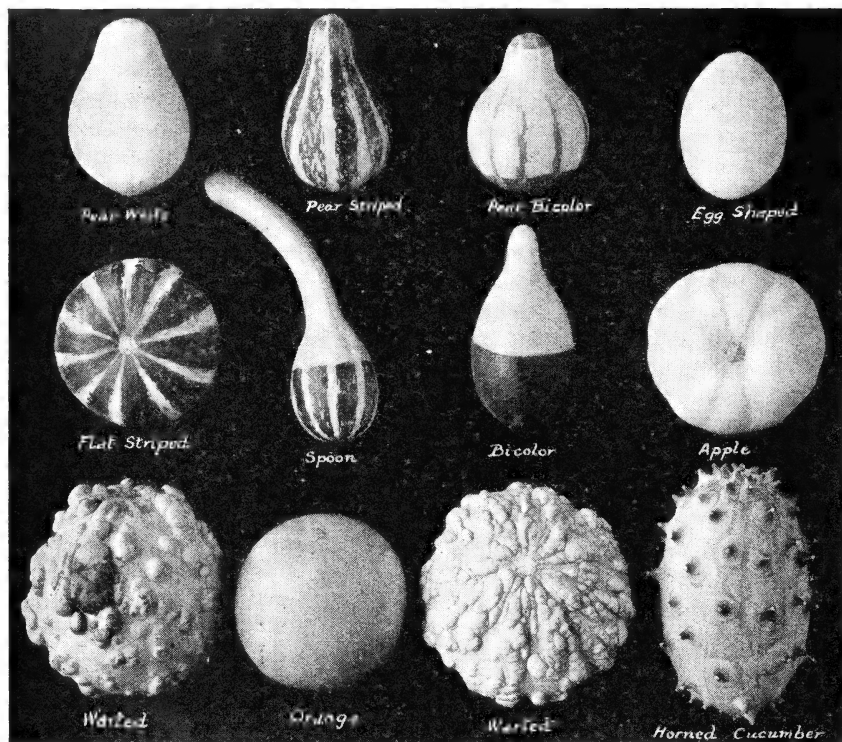

Who said Morning Glories? If you have Morninggloryitis, we prescribe for you our special Collection. See Morning Glory pages.

That "Mile-a-Minute" Vine seems to be a sort of white sheep in the Morning Glory family. Frankly, I'd be surprised to see it run a mile in three minutes. I never saw it. They do say it is interesting on account of the dainty foliage a lacy green, rather than heavy rank growth.

"You can't have everything". That is, not all in one variety. You can't have those super swell double rose-type Hollyhocks, unless you plant them this year for blooms next year and after.

But now you CAN have very beautiful Hollyhock blooms the first year from seed. Just plant seed of the new, true ANNUAL Hollyhock, "Indian Spring". The blooms are sorta semi-double, and measure about 5 inches across. Comes in mixed colors only, ranging from pale pink to crimson-rose. **Pkt. 15c.**

JD Sez, Sez 'e

Meet the young man who delivers the goods, Everett Curtis Long. Middle name and good looks inherited from his mother. As Andy would say, he comes from a long line of Curtises.

And he didn't come any too soon. Has been the junior member of the firm since graduating from our state university a few years ago. Fills a Long felt want. Sure great for me, and for you also, to have him on the job.

In general, I spend much of my time in the office, while Ev looks after the production or growing end of the business. But I still haunt the fields, eager to see the flowers bloom, especially the new varieties. And at times offer some suggestions, though Ev is handling this growing problem so much better than I could that my worries in that line are over.

What helps still more is the fact that Ev has relieved me of every bit of the work and headaches in connection with accounting and making out the many income, social security, and various tax reports to state and federal authorities. Ev took to that like a duck to water. And when his reports are turned in they are correct, thanks be.

Still more. You probably wonder what in Sam Hill is left for ME to do. Believe you me, there's plenty, plus. Everett pitches in and helps with the orders, the correspondence, the catalogue work, and all that. It's good for him and good for the business, both now and eventually. The day must come when Ev will have to take over, though I hope to stick around for quite a while yet.

Ev and I have many things in common. He scales the highest mountain peaks, on foot. I climb as far as the Ford can get a toe-hold and let it go at that. We both weigh our words. Ev weighs his before speaking. I weigh mine after talking. We both went through the Colorado state university here at Boulder. Ev sauntered along, taking four years. I made it in one afternoon flat, as the guest of the superintendent of buildings. Ev won Phi Beta Kappa. I'm a charter member of the Alfalfa Belts.

By the way you ought to see Colorado's university. It's great. Getting bigger and better from year to year. Many come for a term or two in summer. Almost like taking a vacation for folks "back east". Climate is naturally air conditioned. Days not very hot. Nights always cool. Ideal for classes and "home work". High grade instructors. Week end hikes and beefsteak fries in the mountains—hey, if I say more I'll be talking myself into going back for post graduate work.

Suggestions: Write to University of Colorado for information about summer school—and usual courses as well. Write Boulder Chamber of Commerce for interesting booklet about Boulder and its environs. Write Chamber of Commerce, Estes Park, Colorado, for nifty folder concerning Estes Park and Rocky Mountain National Park, where Long's Peak resides and presides.

TWO NEW GIANT NOVELTY ZINNIAS

Crested Zinnia

Howard's Giant Crested Zinnia

The large blossoms have full round-cushiony center, surrounded by broad guard petals. This new Zinnia is the result of direct reciprocal crosses between the smaller Scabious flowered class and the Dahlia flowered strain.

Almost all colors known to Zinnias are found in this new type. Magnificent shades of orange, scarlet, yellow, rose, maize and crimson predominate.

As a cut flower, Crested Giants are especially fine. The effect of a bouquet of this gorgeous new strain is breath-taking and catches the eye at once.

Over ten years have been devoted by Mr. Howard to develop and improve this outstanding Zinnia novelty. It still does not bloom fully true to type, but any not true can be pulled out as soon as bloom. Each year will bring this nearer to 100% true. Pkt. 20c; 2 Pkts. 35c.

SPECIAL: One Pkt. each Howard's Crested and David Burpee for 25c.

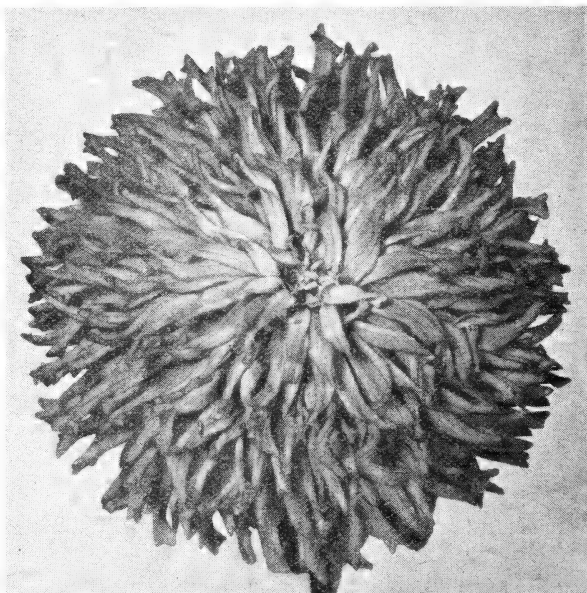

David Burpee Quilled Zinnia

Another giant novelty Zinnia. The flowers, resembling chrysanthemums, are of tremendous size, with petals curled and quilled, on long stems.

Pastel shades predominate, such as soft cream, chamois, buff, terra-cotta, apricot, burnt orange, soft rose and peach. Some blooms contain a combination of 2 or 3 colors.

The leaves are unusual. Not all blooms of this new Zinnia come true to type yet. Funny thing about the plants is that you can tell before they come into bloom which one will produce the curved and quilled petals, and which will produce blooms only slightly quilled or with just plain petals.

The plants that bloom true to type and description usually have very large green leaves that are curled as though in need of spraying for some insect pest. But this is just the normal form of leaves of the finest blooming plants. Pkt. (75 seeds) 10c; 200 seeds 25c; 450 seeds 50c; 1/4 oz. \$1.00.

David Burpee Zinnia

SPECIAL: One Pkt. each Howard's Crested and David Burpee for 25c.

(Bodger's GIGANTEA Orange Double)

Gigantic Tall Double "Pot of Gold" Orange Marigold

A SUPER-SUNSET GIANT. Similar but bigger and better in every way. Can be grown to 5 inches or larger in any good garden. Has been grown 7 inches with special care. (See illustration above.)

COLOR DEEP RICH ORANGE. Flowers delicately sweet scented. Grand for garden display and superb for cutting. Will keep for 10 days or longer when cut.

PLANTS STRONG AND UPRIGHT GROWING, with 6 or 8 heavy branches, each bearing 3 or 4 giant flowers. Begins to bloom a little earlier than Sunset Giants.

Lower Prices for 1941: Pkt. 15c; 2 Pkts. 25c; ¼ oz. 75c.

SPECIAL: One Pkt. each Pot of Gold and Mission Marigolds for 25c. (See Page 2.)

New DWARF "Pot of Gold" Marigold

ANOTHER BODGER MASTER MARIGOLD. Compact, bushy plant of the dwarf type (about 14 inches) but with good stems for cutting.

LARGE GOLDEN DOUBLE BLOSSOMS, 4 to 4½ inches. One of the earliest to bloom. Plant this in front of TALL "Pot of Gold," or any other tall kinds. Price for DWARF "Pot of Gold," Pkt. 20c; 3 Pkts. 50c.

20 Lovely IRIS for Spring Planting, 1941

As most of you know, ordinarily we dig and ship Iris roots only in summer and fall. That is when we and most all other growers plant our Iris.

But Iris does very well planted in **EARLY spring**, if you can get any grower to dig and ship in spring. As you know, leaf growth starts very early on Iris plants. We cut back new growth almost to the roots, for spring shipping.

These 20 varieties are all excellent kinds. Many sold at ever so much higher prices until recently. Note the special offers for lots of 5, 12 or 20, alike or assorted. You pick them out.

In case your Iris order comes too late for spring delivery, we will hold order and fill from new crop roots in July.

Ask for Summer Iris List

This special Iris folder, ready late June, lists about 150 varieties, many of the newest and finest in the world. "Write right now" to be put on our special Iris mailing list. No obligation to buy.

Iris Culture Folder

You could pay \$1.00 or more for a book on Iris growing and not get as much real help as from my 4-page folder, sent free with Iris orders, or mailed to anyone for a 3c stamp.

Coppercarb for Iris Ills

Since writing my 4-page culture suggestions, I had a long talk with Jacob Sass, the famous Iris hybridizer and authority on Iris growing. "Jake" enthused over the positive good results he and others have had with Coppercarb to prevent and arrest Iris diseases.

I knew Coppercarb is good but never realized the extent of its use and value. In many cases it stops root rot right now. And helps ward off leaf spot as well. In general, it protects Iris from most of its enemies. But of course use this or any other treatment with discretion. Don't think if a little is good then a whale of a lot is better.

Jake's favorite method is to apply Coppercarb with a dust gun. Just go up and down the rows, giving each plant a puff of this Coppercarb dust. If you have no dust gun, you might get by with a home-made sifter made from an old tomato can or something. Still another way is to use a bag of loosely woven cloth that will dust the plants as you hold it over them and shake the bag.

Still another method is to dissolve a tablespoon of Coppercarb in a few gallons of water and sprinkle the plants. Good idea is not to wait for signs of trouble, but give the plants the once over with this dust a few times each season.

If root rot has begun, scrape away soil and dust the affected portion of the root. See 4-page folder regarding this.

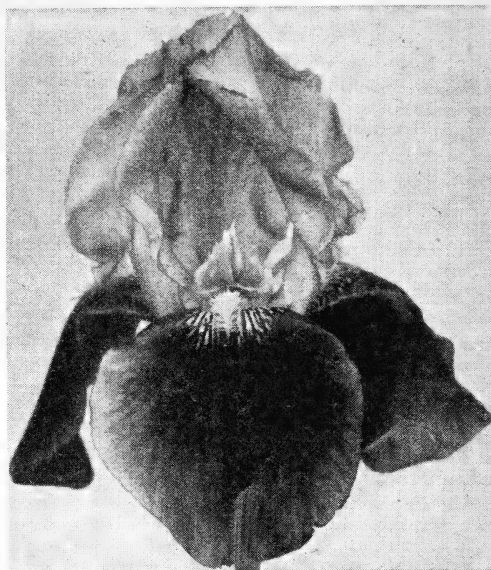

Coppercarb is a trade name. There are several similar products, all good and used the same way, so far as I know. Jake has used Coppercarb only and I'm quoting him with that understanding.

Speaking of Jake, keep your eye on him, his son Henry, and his brother Hans, if you want to keep up with some of the finest new originations from year to year. Their Prairie Sunset seedlings alone "will go far."

Signs of trouble often appear when it turns hot after a rain. A soft white fungus (referred to by Iris growers as "mustard seed") appears on the ground around the plants and at base of plant.

This is the time to act. If some leaves so soft at base that will pull off readily, yank them off and burn them. Then dust or sprinkle leaves and soil around plants with Coppercarb. Use discretion. Don't overdo it. Experiment till learn how much is safe to use.

The price is \$1.00 for a 5-pound package, not prepaid. (Packages not broken.) We ship by express, you pay express charges.

SPECIAL: Any these 20 lovely Iris, alike or assorted. 5 for \$1.00. 12 for \$2.00. 20 for \$3.00. All Iris Prepaid.

MASTODON

Everbearing Strawberries

True stock, free from disease. My plants officially inspected and approved. You start right when you set out **LONG'S** true Mastodon plants. Only new plants sent out. Safe delivery of plants in good growing condition guaranteed.

MASTODON plants are very robust and thrifty. Plants set out in spring begin bearing in July or early August, continuing until heavy freezing weather. They start bearing again the following June. The dark green leaves are very large and of heavy texture, thus well protecting the berries from sun and rain. The berries are borne in clusters on strong stiff stems. Some of the larger berries will not go through the top of a quart milk bottle. (Prices below.)

PLANTS SHIPPED IN SPRING ONLY

If you plant just **one** kind, then plant **Mastodon**.
If plant both, better plant **more** Mastodon than **Gem**.

The "EARLY GEM" Everbearing Strawberries

The **GEM** doesn't make as large plants as the Mastodon. Gem plants run pretty small. But they "take hold" and establish themselves quickly.

They soon develop new leaves and begin blooming and sending out runners early.

I think it's best to pinch off first crop or two of blooms of any everbearing kind. But the "GEM" plants thrive and forge ahead even if berries are allowed to mature early in the season.

I'd say that **EARLINESS** is one of the outstanding valuable points in favor of GEM.

The berries are large, though do not average quite so large as Mastodon. Flavor is good.

Everbearers "stop and go." That is, they set a crop, then rest, then set another crop. GEM leads off ahead of Mastodon with first picking. After that the two are likely to work and rest at different times, thus insuring you a more uniform supply than either one variety could.

One scale of prices for **BOTH MASTODON AND GEM** plants. You can take part each of the two kinds to get the quantity prices.

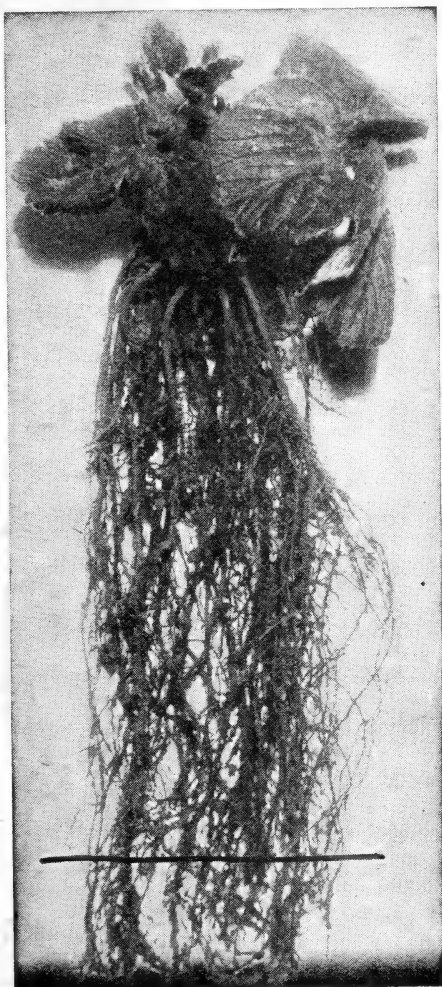

Plants are put up in bundles of 25. So make up your order, for example: 25 of one kind and 75 of the other, or 50 of each kind, to get the 100 rate. Or, 150 of one kind and 250 of another to get the 400 rate, and so on.

PRICES: Prepaid within 5th zone.

(50 plants, smallest order packed, for \$1.00) (100 for \$1.80) (200 for \$3.40) (300 for \$4.80) (400 for \$6.00) (500 for \$7.00) (1,000 for \$13.50). (Not shipped beyond 5th zone.)

Write for prices for **STRAWBERRY PLANTS BY EXPRESS, NOT PREPAID.**

If want to give yourself a treat,
Plant Mastodons, so large and sweet.
They bear July till late in fall,
But plant **TRUE** stock, or none at all.

20 PAGE BOOKLET—FREE!

I've told you about ROTOTOX—"The Spray that Slays." It's sudden death to many pests.

ROTOTOX not only "Licks the Thrips" on Glads, but is also one of the best sprays for Roses, Dahlias, Iris, Delphinium, and many other garden plants.

ROTOTOX has many uses that I cannot mention in my catalogues and booklets, due to lack of space.

But here's good News. A 20 page booklet, size 4x8 inches, has been prepared by the Rototox Company.

This booklet is a mine of information concerning control of many garden pests. It is called their GREEN BOOKLET.

The ROTOTOX Company has advised me that if you do not have this booklet, a copy will be sent you, no charge, a postcard will do. Write or print your full address plainly.

These GREEN BOOKLETS are expensive. Please do not ask for more than one copy. See opposite column for ROTOTOX address.

The nicest lawn that I have seen,
As smooth as silk, and lovely green,
Was grown from seed, our "SAFETY-FIRST,"
And watered oft, to quench its thirst.

Sow "Safety-First" and avoid seeding your lawn with noxious weeds found in cheap grass seeds. You get so much higher germination that a pound of the best will cover as much as two pounds of the cheap seed.

For the Lawn's Sake

New lawns should be thoroughly worked, leveled and allowed to settle, then leveled again. The more care before sowing the seed the better the results. Seed will wash to the low spots and make your lawn spotted. Sow about one part clover to five parts blue grass. Use not less than pound to 200 square feet.

Sow part the seed one way and then some more crosswise, so as to avoid streaks. Make well before and after sowing. Water gently so often that soil never dries out until lawn is green. Clover comes quickly. Blue grass comes slowly but hangs on like grim death after gets a foothold.

Old lawns should be re-seeded and fertilized from time to time. Use only the purest seed. Never be afraid of sowing too much seed, nor too often. Dandelion and other weed seeds are blown or carried on to the lawn. Give the lawn a break by sowing good pure grass seed often, to compete with dandelion seed.

If feed your lawn some White Dutch Clover,
The ground will soon be green all over.
And then almost before you know,
You'll hafta up and start to mow.

Purest White Clover

Clean seed, of bright golden color and strong vitality, "rarin' to go." Sure fine. Lb. \$1.00; 2 lbs. \$1.90; 3 lbs. \$2.85, prepaid, any zone.

	2nd Zone	3rd Zone	4th Zone	5th Zone	6th Zone	7th Zone
5 lbs....	\$4.40	\$4.45	\$4.55	\$4.65	\$4.75	\$4.85

"Wrong Number" White Clover

Much White Clover seed for lawns formerly came to U. S. A. from Poland. That supply now shut off. The LAWN type White Clover seed very scarce. There is a tall type, for pastures, that is not suitable for lawns. Might be sold as lawn type by some firms. Ours is the true LAWN type.

Best Kentucky Blue Grass

Very heavy and clean. Lb. 50c; 2 lbs. 95c; 3 lbs. \$1.35, prepaid, any zone.

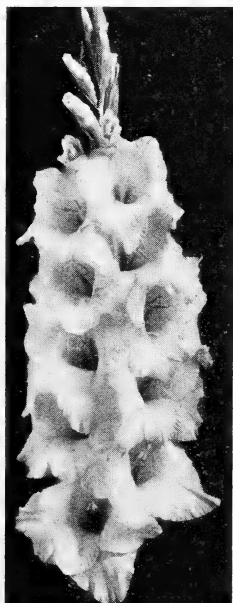

Zone:	2nd	3rd	4th	5th	6th	7th

3 lbs.....	3.15	3.15	3.20	3.25

When you set out to buy Blue Grass,
Don't take no salesman's lip or sass.
Insist upon the heavy grade
That thrives in sun or partial shade.

MYRNA

New white ruffled super Glad. See Glad pages for prices.

VITAMIZE

If you can reach all or even part of your garden with the hose, then order a \$1.00 box of GROFAST CARTRIDGES, which is sufficient to "vitamize" a small garden once a week during growing season. So easy to use. Just drop a cartridge into the nozzle, turn on the water. Box of 30 cartridges \$1.00, prepaid.

MARGARET BEATON GLAD

Rev. Harry Schultz, Herron, Mich., grew two spikes Margaret Beaton Glad. Just the flower head of this spike measured 34 inches. The other one not caught by the candid camera, measured 38 inches. That's a yardstick, not a foot rule. Church belfry in background.

Gladiolus Bulbs

FOR WINTER AND
SPRING DELIVERY

☞ This Catalogue Cancels All Former Listings or Offers ☞

Three Size Glad Bulbs

The **LARGE BULBS** measure (in diameter) from 1 1/4 inches up, mixed sizes. (Part No. 1 and part No. 2 sizes.) This size is designated by the letter "**L**".

MEDIUM BULBS measure 3/4 inch to an inch or larger, mixed sizes. (Part No. 3 and part No. 4 sizes.) These Medium Bulbs bloom splendidly, though the large bulbs make still larger spikes and more of them. Medium bulbs are designated by the letter "**M**".

NOTE: If sold out No. 1 size, we may send all No. 2 for Large, but more of them. If out No. 3, will send all No. 4 but more of them. Usually have enough so can send as noted above, however.

SMALL BULBS are designated by the letter "**S**". They will average nearly half-inch in diameter. Not sold as blooming sizes, yet many will bloom.

NOTE: It will help us in filling your Glad bulb orders if you will mention the size each time: Large, Medium, Small, or just the letters **L, M or S**.

Prices, Terms, Delivery

I prepay all Glad orders. (Except at wholesale as noted.)

Each item on your Glad order must amount to not less than 10c.

TERMS: Cash with order, or 1/4 cash with order, balance C. O. D. Or send 1/4 with order, and balance any time before shipment.

DELIVERY: (Except wholesale lots.) I pay all postage or express charges, and guarantee safe delivery. (My choice, whether parcel post or express.)

If your express office is different from your mail address, please be SURE to give express office address also when ordering.

What Size Shall I Buy?

A Large bulb usually produces two spikes of blossoms, sometimes three. A Medium bulb will produce a splendid spike, maybe two. A Small bulb is not certain to bloom, but many smaller bulbs will bloom, producing small spikes. Large and Medium best for blooms.

More About Bulb Sizes

Please read again above regarding sizes of bulbs—Large, Medium and Small. Note that Large does not mean No. 1 size but 1 1/4 in. up—part No. 1, part No. 2. Medium does not mean No. 2 size nor all No. 3.

Second Choice, Please

Sooner or later, some kinds and sizes of Glad bulbs will be sold out. Saves a lot of time and correspondence if you will kindly—

1. Name a few varieties that we may send in case sold out of any item on your order;
2. Say if we may send another size;
3. Say if we may send something good, our selection, from kinds we have to spare.

HOW TO SEND MONEY

For small amounts, stamps, coin or currency usually safe if sent in our strong return envelopes. Money Orders or checks safer, account if lost or stolen neither you nor we can lose.

Right now when many prices rise.

We may be wrong, we may be wise,

To make OUR prices somewhat lower,

And help each eager garden grower.

To carry out this noble plan,

Some frills and costs we've had to can—

Send out a modest catalogue,

And not, this year, put on the dog.

If You Pay P. P. or Express

All Glad bulbs in this catalogue are priced PREPAID, except wholesale lots.

BUT many customers have been much pleased with my special proposition.

If the customer pays express on Glads priced prepaid, I will send extra Glads to more than offset the express charges. I'll send extra bulbs of kinds on your order, or some good kinds, my selection, or maybe both.

If order part from wholesale list and part from prepaid lists, you will find it much to your advantage to do as many others have done. Just say, "Send all at my expense and add more Glads to **COVER SENDING COSTS ON PREPAID ITEMS.**"

Send No Money for P. Post

Express is often cheaper than parcel post, as bulbs take a special low rate by express.

But if you specify parcel post shipment and you pay carrying charges, then we ship C. O. D. for postage. Please do not send any money in such cases for postage or try to estimate it. Nor say you will remit for postage later.

We keep no postage accounts. Either express, you pay express on arrival, or parcel post, the postage C. O. D.

Any Glads priced prepaid may be ordered f. o. b. Boulder, at the prepaid prices, but I then send you more than enough extra stock to offset the carrying charges. (Order should be \$3.00 or more to take advantage of this offer.)

Safe Delivery Guaranteed

We ship bulbs all winter. Prefer to ship soon as order received, because have so many other shipments in spring. But, of course, will hold until spring if you say so. Safe delivery guaranteed. You take no risk, no matter when we ship.

LONG'S Count

As all my old customers know, your GLAD order will be filled most liberally. I could promise you more for your money, but I like to surprise you by doing better than I offer. The larger the order, the more liberal the overcount. (No extra count offered at F. O. B. wholesale rates.)

Special Price on Large Lot

Send list for price on the lot, if you care to, but only for good sized lots, not a list amounting to only a few dollars. I'll make you price f. o. b. Boulder on the list. Please state definitely the kinds, sizes and quantities of each wanted.

"Glad Gossip," 10 Cents

"Glad Gossip" is a 24-page booklet I wrote to help both amateurs and professional growers get the most pleasure and profit from their Glads. Doesn't tell all there is to know about Glads, but tips you off about many points of vital interest.

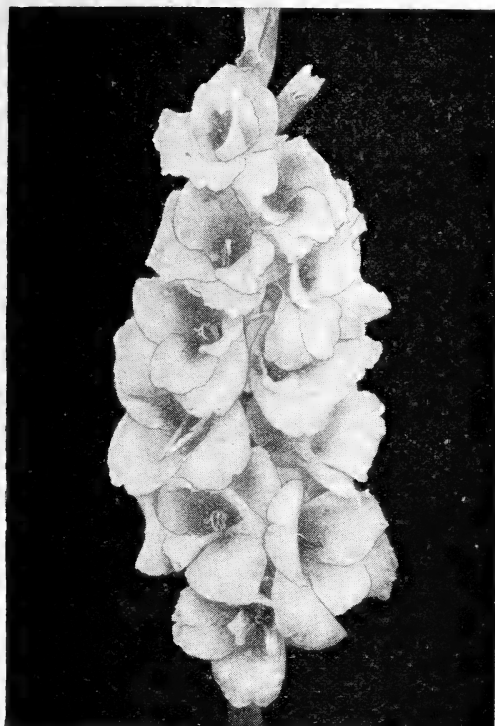

Among other things, about eight pages are given to **thrips**. Many who followed my suggestions last season solved their thrips problems, and have renewed their enthusiasm for growing Glads as a hobby or for market.

The price is 10 cents. If not worth 10 cents then it isn't worth sending for. It's been worth dollars to many Glad growers. You'll be surprised.

Free with Glad orders amounting to 50c or over, if asked for when order is sent. Otherwise 10c please.

A New Super Glad "New Zealand Splendor"

(Originated by W. R. Toon, New Zealand)
Probably the best Glad introduced into U.S.A. from New Zealand. Medium pink with orange-scarlet blotch.

The plant and spike sturdy and strong. Blooms large. Many open. A crooked spike or misplaced bloom "very unusual".

The color is medium pink, with throat blotch of orange-scarlet. The shade varies somewhat, depending on soil and weather.

The florets set close to the spike, and are well faced and spaced. They look you right in the eye.

New Zealand Splendor is a Picardy and Mrs. S. A. Errey seedling. Thanks to Canada and Australia as well as New Zealand.

A large successful commercial grower bought a few "Splendor" bulbs last season. Wrote us: Zealand Splendor did fine. Made beautiful spikes. I like the placement of the florets and their leathery texture. Looks to me like a comer.

The sturdy growth of the plant impressed me. That is lacking in a lot of good Glads today.

Supply small. (L. \$1.00; 3—\$2.40; 10—\$3.00) (M. 50c; 3—\$1.20; 10—\$4.00) (S. 25c; 3—60c; 10—\$2.00). (Bulblets withdrawn for propagation.)

New Zealand Splendor makes a hit.
No other name could better fit.

Please do not order in smaller quantities than listed. (5 or more bulbs at the 10 rate; but must amount to not less than 10c.)

No single item less than 10c. Five bulbs at the 10 rate, unless otherwise noted.

Acadia (Palmer.) Geranium-pink. Cream throat. Tall, stiff, straight spike. (L. 2—12c; 10—50c) (M. 3—10c; 10—25c).

Acadia's a Glad you'll like,
The blooms face nicely on the spike.

Aida (Pf.) Rich, deep violet-blue. (L. 2—12c; 10—50c) (M. 3—10c; 10—25c).

Aladdin (Palmer.) Big bright salmon, with cream blotch. (L. 40c; 3—\$1.00; 10—\$3.00) (M. 25c; 3—60c; 10—\$2.00) (S. 15c; 2—25c; 10—\$1.20) (Blts. 7—20c; 25—50c).

Alayne (Kinyon.) Beautiful new shade of light rose. Never flecks. (L. 2—12c; 10—50c) (M. 3—10c; 10—30c) (S. 10—20c).

Algonquin (Palmer.) Brilliant glowing red. Very large and fine. (L. 50c; 3—\$1.20; 10—\$4.00; 10—\$2.40) (M. 30c; 3—75c; 10—\$2.40) (S. 20c; 3—50c; 10—\$1.60).

Algonquin tops the giant reds.
Add this when plant your Gladdy beds.

Amrita (Palmer.) Shades of capucine buff, yellow throat, ruffled. (L. 15c; 3—40c; 10—\$1.20) (M. 10c; 3—25c; 10—80c).

Amulet (Palmer.) Heavily ruffled buff. (L. 40c; 3—\$1.00; 10—\$3.20) (M. 25c; 3—60c; 10—\$2.00) (S. 15c; 10—\$1.20) (Blts. 7—20c).

Auahi (From New Zealand.) Smoky mauve, suffused old rose, white throat. (L. 15c; 2—25c; 10—\$1.20) (M. 10c; 3—25c; 10—80c).

Ave Maria (Pf.) Large near-blue. Tall straight spike. (L. 2—12c; 10—50c) (M. 3—10c; 10—25c).

Bagdad (Palmer.) Smoky old rose. Large. Tall straight spike. (L. 2—12c; 10—50c) (M. 3—10c; 10—25c).

Barcarole (Palmer.) New large, tall, clear orange. (L. 40c; 3—\$1.00) (M. 25c; 3—60c; 10—\$2.00) (S. 15c; 3—40c; 10—\$1.20) (Blts. 7—20c; 25—50c).

From coast to coast, from pole to pole,
They're praising orange Barcarole.

Beacon (Palmer.) Red salmon with large cream blotches. (L. 10c; 10—30c) (M. 2—10c; 10—40c) (S. 10—20c) (Blts. 60—25c).

Beautiful Ohio (Hul.) New tall lavender-rose. (L. 20c; 10—\$1.60) (M. 15c; 10—\$1.20).

Berty Snow (Mair.) Large lavender. (L. 2—12c; 10—50c) (M. 3—10c; 10—25c).

Betty Brown Eyes (Briggs.) Orange, maroon blotches on two lower petals. (L. 2—12c; 10—50c) (M. 3—10c; 10—30c).

Betty Co-Ed (Briggs.) Soft creamy pink, "that schoolgirl complexion." (L. 2—12c; 10—50c) (M. 3—10c; 10—25c) (S. 10—15c).

Betty Co-ed, with "that complexion,"
Has blooms all pointing same direction.

Betty Nuthall (Salbach.) Coral with orange throat. (L. 2—12c; 10—50c) (M. 3—10c; 10—25c).

Debonair (Palmer.) LaFrance pink. Throat shrimp pink and cream. Tall, straight spike. Very long flower head. Blooms spaced and faced right, and a whale of a lot of them. Another Palmer winner. (L. 2—12c; 10—50c) (M. 3—10c; 10—25c) (S. 10—15c).

Dixie Gold (Ford.) New tall, golden orange, shading to deeper orange, giving a two-tone effect. Lovely. (L. 50c; 3—\$1.20) (M. 40c; 3—\$1.00; 10—\$3.00) (S. 30c; 5—\$1.00).

Do-X (Pf.) Amber yellow. (L. 10c; 10—80c).

Dr. Durr (Pf.) Pure white with cream throat. Very early. (L. 2—12c; 10—50c) (M. 3—10c; 10—25c).

Dr. Hoeg (Prestgard.) Glistening dark red. (L. 2—12c; 10—50c) (M. 3—10c; 10—25c) (S. 10—15c).

Dr. Moody (Kinyon.) Large lavender. Early. Good straight spike. (L. 2—12c; 10—50c) (M. 3—10c; 10—25c).

Duke (Krueger.) Originator's description: "A giant blazing red. Spikes up to 78 inches tall. Large bulbs produce gigantic spikes. Smaller bulbs bloom well but do not develop such massive blooms. Mid-season. Produces many bubblets, which germinate slowly. Some florets not well placed. A few spikes crook. In spite of this, it is THE exhibition red. Opens up 8 large florets. Is cross Commander Koehl X Picardy."

This may be the answer to that frequent cry, "What red is nearly as large and fine as Picardy?" Algonquin may be another answer.—JD.

Duke Prices: (L. \$2.00; 3—\$4.80) (M. \$1.50; 3—\$3.60) (S. \$1.00; 3—\$2.40) (Blts. 10—\$1.00).

Duna (Palmer.) Soft light pinky buff. A beautiful clear, distinct new shade in Glads. Tall, straight spike. The opening florets look like lovely rosebuds. (L. 2—12c; 10—50c) (M. 3—10c; 10—25c)

Some Glads you almost want to eat,
Like Duna, buff, so nice and neat.

Early Dawn (Briggs.) Tall and large, very early geranium pink. (L. 2—12c; 10—50c) (M. 3—10c; 10—25c).

Early Peach (Pruitt.) Peach-red, blending to ivory. (L. 2—12c; 10—50c) (M. 3—10c; 10—25c).

Early Rose (Milton Jack, Canada.) Rich rose, lighter in throat. Unique color. Large. Early. (L. 2—15c; 10—60c) (M. 2—10c; 10—40c).

The Glad that Jack built—Early Rose—
Is good from tip clear down to toes.

Early Sunrise (Vel.) Large, tall, deep salmon. Early. (Color varies.) (L. 2—14c; 10—60c).

Edith Robson (Australia.) Light salmon-rose with reddish blotch. (L. 2—12c; 10—50c) (M. 10—25c).

Ellen Marie (Pruitt.) Salmon-pink. (L. 2—14c; 10—60c) (M. 2—10c; 10—40c) (S. 10—20c) (Blts. 25—15c).

Eloise (Dorrett.) Clear, dark lavender or orchid. Unusual shade. LOVELY. (L. 2—14c; 10—60c) (M. 3—10c; 10—30c).

Emile Aubrun (Lemoine.) Huge spike bronze, with cherry blotch. Great favorite. (L. 2—12c; 10—50c) (M. 3—10c; 10—25c).

Old Emile Aubrun's going strong.
Most Glads its age would say, "So Long."

Euides (Errey.) Ivory white, with pink edges. (L. 12c; 10—\$1.00) (M. 10—50c).

Evelyn Kirtland (Mrs. Austin.) Deep rose-pink. Center shell-pink. Scarlet blotches lower petals. (L. 2—12c; 10—50c) (M. 3—10c; 10—25c).

Fata Morgana (Pf.) Peach blossom Amber throat. EXTRA EARLY. (L. 2—12c; 10—50c) (M. 10—25c).

Flaming Meteor (Mitsch.) Extra large, red blooms. (L. 2—15c; 10—60c) (M. 3—10c; 10—30c).

Frost Pink Ornatus (Evans.) Lovely ruffled silvery pink. (L. 12c; 10—\$1.00) (M. 2—14c; 10—60c) (S. 10—30c) (Blts. 25—25c).

Gate of Heaven (Pf.) Straight spike. Strong growing, pure, rich, deep yellow. Florets large, ruffled, well placed. (L. 2—12c; 10—50c) (M. 3—10c; 10—25c) (S. 10—15c).

Plant Gate of Heaven for one yellow.
Is sure to please most any fellow.

Golden Chimes (Ellis.) Beautiful large light yellow. (L. 2—12c; 10—50c) (M. 10—30c).

Golden Cup (Palmer.) Yellow. Deeper than Golden Dream, and larger. Good tall, straight, stiff spike. (L. 2—12c; 10—50c) (M. 3—10c; 10—25c).

Still hunting yellows? Don't give up.
Until you win, plant Golden Cup.

Gold Dust (Pf.) Bright rich yellow, almost faultless, and very early. Ev and I like this a lot, and so do the Denver florists. Too good to be sold at these low prices. But while stocks last: (L. 10c; 3—25c; 10—80c) (M. 2—15c; 10—40c). No lower prices for larger lots this season.)

Green Light (Pf.) New ruffled white with green cast when opens. (L. 15c) (M. 10c).

Heiligtum (Pf.) Large alabaster white, with creamy throat. (L. 15c; 10—\$1.20) (M. 2—14c; 10—60c).

Hercules (Crow.) New shade of clear buff. Tall massive spike. Blooms large and of heavy texture. (L. 2—14c; 10—60c) (M. 3—10c; 10—30c).

Heritage (Ristow.) Very large warm pink, throat lighter. (L. 2—14c; 10—60c) (M. 3—10c; 10—30c).

Honor (Mrs. Kinyon.) New clear lavender. Straight, stiff spike. Beautiful! (L. 2—12c; 10—50c) (M. 3—10c; 10—25c) (S. 10—15c).

For Honor no one sheds a tear—
The lavender that's always CLEAR.

Irak (Mitsch.) A silvery-grey sport of Bagdad. Finer color than MARMORA, taller. A giant novelty. (L. 2—14c; 10—60c) (M. 2—10c; 10—40c) (S. 10—20c) (Blts. 100—20c).

Jasmine (Palmer.) New lemon yellow. (L. 50c; 3—\$1.20) (M. 30c; 3—75c) (S. 20c; 3—50c).

Jersey Cream (Evans.) Strong grower. Good habits. Fine. (L. 2—12c; 10—50c) (M. 3—10c; 10—25c) (S. 10—15c).

One Glad that brings a joyous scream,
Is Herbert's lovely Jersey Cream.

J. S. Bach (Pf.) Immense salmon-orange. Early. (L. 2—14c; 10—60c) (M. 3—10c; 10—30c).

King Arthur (Arenius.) Grand deep rose-lavender. Florets large. Fluted. (L. 2—12c; 10—50c) (M. 3—10c; 10—25c) (S. 10—15c).

King Arthur cost a hundred bucks,
When it was new—a Glad de-luxe.

Leona (Pruitt.) A very rich rose-red. Medium late, tall growing, carrying from 6 to 8 fine, large, ruffled flowers open at one time. (L. 2—14c; 10—60c) (M. 10—30c).

Libelle (Pf.) Heliotrope-blue, violet. (L. 2—12c; 10—50c) (M. 3—10c; 10—25c).

Londonderry (Christ.) Giant rich bronzy orange with faint smoky cast over all. Touch of carmine in the throat. A giant in both plant and flowers. (L. 2—12c; 10—50c) (M. 3—10c; 10—30c) (S. 10—15c).

And plant some bronzy Londonderrys,
The Glad some say, "It is the berries."

Louis d'Or (Pf.) Bright orange-yellow early decorative. Lively. (L. 2—12c; 10—50c) (M. 3—10c; 10—30c) (S. 10—15c).

Maid of Orleans (Pf.) Large lovely milky white with cream throat. Tall, straight spike. (L. 2—12c; 10—50c) (M. 3—10c; 10—25c).

I love to don my threadbare jeans,
And cut a bunch of Maid-Of-Orleans.

Mammoth White (U. B.) Immense white. Several spikes make a mass of blooms. (L. 2—12c; 10—50c) (M. 3—10c; 10—25c).

Margaret Beaton (Twomey.) New, immense white, with orange-scarlet blotch. (L. 40c; 3—\$1.00) (M. 30c; 4—\$1.00).

A Glad as grand as Mrs. Heaton,
But color white, is Marg'ret Beaton.

Margaret Fulton Superb early salmon favorite. A distinct shade, different from the color of any other variety. (L. 2—12c; 10—50c) (M. 3—10c; 10—25c) (S. 10—15c).

Inscribe this in your garden books,
That Margaret Fulton never crooks.

Marguerite (Pommert.) Mammoth new watermelon pink, with cream throat. Nicely ruffled. Never flecks. Spike straight. (L. \$1.00; 3—\$2.70) (M. 75c; 3—\$2.00) (S. 50c; 3—\$1.35) (Blts. 2—25c; 10 \$1.00).

Marmora (Errey.) Immense smoky lavender from Australia. (L. 2—12c; 10—50c) (M. 3—10c; 10—25c).

Mary Damaris (Clark-Stewart.) Clear soft yellow. Good spike. Fine exhibition and commercial. (L. 30c; 4—\$1.00) (M. 20c; 7—\$1.00).

Matador (Christ.) Lavender-red, with dark blotches. Similar to Early Rose. Deeper color in throat. (L. 15c; 10—\$1.20) (M. 2—14c; 10—60c) (S. 3—10c; 10—30c).

Matterhorn (Pf.) Large exhibition white. Opens up to 10 blooms well faced. (Don't confuse with Matador.) (L. 40c; 3—\$1.00) (M. 25c; 5—\$1.00).

Maunga (New Zealand.) Gigantic pure white. Florets too loosely attached. (L. 2—14c; 10—60c) (M. 3—10c; 10—30c).

Merry Sunshine (Nichols.) The name just fits. Medium size flowers of soft yellow, with frilly pink edges. "Merry Sunshine" indeed. (L. 2—14c; 10—60c) (M. 2—10c; 10—40c).

Milford (New Zealand.) Clear, even tone of lovely light blue. Flowers very large, 9 open. Spike and placement splendid. A sturdy, healthy, beautiful giant Glad. (L. 2—12c; 10—50c) (M. 10—30c).

New Zealand's Milford straight and tall,
Is good for summer or in fall.

Millie Parks (New Zealand.) Shrimp pink, flaked rose dore, primrose throat. (L. 15c; 2—25c; 10—\$1.20) (M. 10c; 3—25c; 10—80c).

Minuet (J. C.) Large lavender. Grand. (L. 2—12c; 10—50c) (M. 10—25c).

Miss Alameda (Salbach.) Large deep salmon-pink, with carmine blotch. Tall straight spike. Florets large and of heavy substance. (L. 2-12c; 10-50c) (M. 3-10c; 10-25c).

Before Miss Alameda blooms,
Each bud a thing of beauty looms.

Miss Greeley (Briggs.) Large early pink. (L. 2-12c; 10-50c) (M. 3-10c; 10-25c).

Miss Marion (Zimmer.) A very distinctive shade of mauve lavender. (L. 15c; 10-\$1.20) (M. 2-14c; 10-50c).

Miss New Zealand (New Zealand.) The sensational salmon-apricot Glad that put New Zealand on the Glad map. Gigantic in every way. (L. 2-14c; 10-60c) (M. 2-10c; 10-40c) (S. 10-20c).

A Miss New Zealand grew so high,
The tip was lost up in the sky.
(Editor's Note: I don't believe it.)

Morocco (Pf.) Very dark maroon. Buds almost black. (L. 2-12c; 10-50c) (M. 3-10c; 10-25c).

Morning Serenade (Fischer.) Pink and cream combination. (L. 40c; 3-\$1.00) (M. 25c; 5-\$1.00).

Mother Machree (Stevens.) Soft smoky lavender. (L. 2-12c; 10-50c) (M. 3-10c; 10-25c).

Mr. W. H. Phipps (D.) La France pink. (L. 2-12c; 10-50c) (M. 10-25c).

Mrs. Douglas (Diener.) Begonia-rose, striped scarlet. Supply small. (No. 2 size 2-10c; 10-40c).

Mrs. E. J. Heaton (Heaton.) Glowing salmon with clear cream throat. 6 to 8 large flowers open. Stands heat. (L. 2-12c; 10-50c) (M. 3-10c; 10-25c) (S. 10-15c).

This Mrs. Heaton's hard to beat.
Is mighty good—and stands the heat.

Mrs. E. J. Toon (Toon, New Zealand.) A tall, very large white. (L. 20c; 3-50c) (M. 10c; 3-25c).

Mrs. G. Wade (Whiteley, New Zealand.) Medium yellow. (L. 2-15c; 10-60c) (M. 3-10c; 10-30c).

Myrna (Pruitt.) New large ruffled white. Winner of many prizes. (L. 75c; 3-\$1.50) (M. 50c; 3-\$1.10) (S. 25c; 3-60c) (Blts. 5-45c).

Nadia (Leffingwell.) Decorative. Salmon-yellow. Long flower head. (L. 15c; 2-25c; 10-\$1.20) (M. 10c; 10-80c).

New Era (Ellis-Majeski.) Eosine pink blended with La France pink. Scarce. (L. 15c; 2-25c) (M. 10c; 3-25c; 10-80c) (S. 10-40c). (Bulblets withdrawn for propagation.)

New Zealand Splendor Probably the best Glad introduced into U. S. A. from New Zealand. Medium pink with orange-scarlet blotch. (L. \$1.00; 3-\$2.40) (M. 50c; 3-\$1.20) (S. 25c; 3-60c).

Ninth Symphony (Pf.) Vivid salmon-red with silky sheen. No markings. Florets very large. (L. 10c; 3-25c; 10-80c) (M. 2-12c; 10-50c).

Our Selection (Australia.) Salmon-red. Slate flakings. (No. 2 size 2-12c; 10-50c).

Paradise (Pruitt.) Apricot-buff, shading to yellow in throat. Tall spike. Color similar to Wasaga. Vigorous grower. (L. 2-12c; 10-50c) (M. 3-10c; 10-25c) (S. 10-25c).

Wasaga has a rival now,
In Paradise, and it's a WOW!

Paul Grampel (Pf.) Brilliant scarlet. (L. 20c; 3-50c).

Peggy Lou (Wilson-Evans.) Smooth, deep shrimp pink with a rosy cast. (L. 15c; 2-25c; 10-\$1.20) (M. 2-14c; 10-60c) (S. 3-10c; 10-30c) (Blts. 50-25c).

As man to man, I say to you,
To win a prize, grow Peggy Lou.

Pelegrina (Pf.) Near blue. (L. 2-12c; 10-50c) (M. 3-10c; 10-25c).

Pfitzer's Masterpiece Large salmon-pink, lighter throat. Spikes often crook. (L. 20c; 3-50c) (M. 15c; 2-25c; 10-\$1.20).

Picardy (Palmer.) Soft shrimp pink. (L. 2-12c; 10-50c) (M. 3-10c; 10-25c) (S. 10-10c).

New Glads still come, and many go,
But Picardy will stop the show.

Prairie Gold (Corrington.) Rich deep yellow. Carmine. (L. 2-14c; 10-60c) (M. 3-10c; 10-30c) (S. 10-20c) (Blts. 25-10c; 100-25c).

If I may speak and be so bold,
I'll say, "Let's plant some Prairie Gold."

Puritan (Baerman.) Ruffled pure pink. (L. 20c; 3-50c; 10-\$1.60) (M. 12c; 3-30c; 10-\$1.00) (S. 2-12c; 10-50c) (Blts. 25-25c; 100-75c).

Rameses (Stevens.) Red-purple with deep crimson blotch. Supply small. (No. 2 size 2-14c; 10-60c).

Rapture (Palmer.) Light salmon. (L. 2-12c; 10-50c) (M. 3-10c; 10-25c) (S. 10-15c).

Recado (Palmer.) Gigantic new smoky. (L. 25c; 3-60c; 10-\$2.00) (M. 10c; 3-25c; 10-80c).

Red Pippies (Briggs.) A glowing red, splendid spike, good plantment. Favorite Commercial red, and highly prized by fans. (L. 2-12c; 10-50c) (M. 3-10c; 10-25c) (S. 10-15c).

Too bad good old Professor Chips
Did not live on till saw Red Pippies.

Redwood Beauty (Majeski.) Large, heavily ruffled salmon-red, with pansy-like blotch in throat. Very unusual and pleasing. Still scarce. (L. 20c; 3-50c; 10-\$1.60).

A Glad that does its honest duty,
Is John Majeski's "Redwood Beauty."

Regent (Palmer.) Fine new scarlet. Big. (L. 15c; 2-25c; 10-\$1.20) (M. 10c; 3-25c; 10-80c).

Resolution (Baerman.) Rich scarlet. (L. 25c; 3-60c; 10-\$2.00) (M. 15c; 2-25c; 10-\$1.20).

Reverie (Palmer.) Light pink-cream. (L. 2-15c; 10-60c) (M. 3-10c; 10-30c).

Rewi Fallu (Australia.) Tall, straight, strong spike with 6 or more massive, rich deep red blooms open at once, and plenty buds showing color.

Rewi Fallu is a healthy, husky grower. Makes fine, clean bulbs. Even medium bulbs produce exhibition spikes. (L. 2-14c; 10-60c) (M. 3-10c; 10-30c) (S. 10-20c).

A running mate for Peggy Lou
Is mammoth red Rewi Fallu.

Richard Wagner (Christ.) Good cream, nearly white. (L. 2-15c; 10-60c).

Rima (Mitsch.) Lovely blend of lilac and rose, with lighter, creamy throat. One of the most beautiful of pastel-colored Glads. Tall, straight spikes. (L. 15c; 2-25c; 10-\$1.20) (M. 2-14c; 10-60c). (Small bulbs and bulbets sold out.)

Grant Mitch's Rima, very large,
With beauty captivates our "Sarge."

Robert Burns (Christ.) Similar to Blue Admiral, but larger. (L. 10c; 3-25c; 10-80c) (M. 2-12c; 10-50c) (S. 3-10c; 10-30c) (Blts. 20-15c).

Rosamond (Wright.) Salmon-rose with darker blotch. (L. 15c; 2-25c; 10-\$1.20) (M. 10c; 3-25c; 10-80c).

Sahara (Palmer.) Light brown to tan. Unusual color, well named. (L. 20c; 3-50c; 10-\$1.60) (M. 10c; 3-25c; 10-80c).

Salbach's Orchid (Salbach.) Similar to Minuet but pink. Fine spike. (L. 2-12c; 10-50c) (M. 3-10c; 10-25c).

The Salbach Orchid has this trait:
Its spikes are always nice and straight.

Sandra (Palmer.) Shrimp pink, amber blotch. (L. 15c; 2-25c; 10-\$1.20) (M. 10c; 3-25c; 10-80c).

St. Lawrence (Christ.) Bright scarlet with cardinal throat. (L. 10c; 10-70c) (M. 2-10c; 10-40c).

Schwaben Girl (Pf.) Pure pink without markings—strong straight spikes. Large florets with round petals, 8 to 10 open. Surprisingly early for such a large, fine Glad. (L. 2-12c; 10-50c).

Sensation (Marshall.) Tall, large ruffled rose, lighter throat. (L. \$1.00; 3-\$2.40) (M. 75c; 3-\$1.80) (S. 50c; 3-\$1.20).

Shirley Temple (Pruitt.) Immense ruffled cream. (L. 2-14c; 10-60c) (M. 3-10c; 10-30c) (S. 10-20c).

With Shirley Temple now so cheap,
You can plant and grow a heap.

Simcoe (Vickers.) Light purple, flaked darker. (L. 15c; 10-\$1.20) (M. 10c; 10-80c).

Smiling Maestro (Christ.) Deep salmon-rose, flaked brown. Large exhibition type. (L. 2-12c; 10-50c) (M. 3-10c; 10-30c).

Snow Princess (Pfitzer.) Immense white. Good spike. Blooms well placed. (L. 20c; 3-50c; 10-\$1.60) (M. 10c; 3-25c; 10-80c) (S. 2-10c; 10-40c) (Blts. 15-25c).

Snow Princess is a big new white,
You won't go wrong, if say, "I'll bite."

Sonatine (Pf.) Very tall, large, early, lustrous pink, with non-kinking spike. Not a "Saxophone" spike in a carload! (L. 2-12c; 10-50c) (M. 3-10c; 10-25c) (S. 10-15c).

Too bad that dame, "Our Clementine,"
Grew ducks instead of Sonatine.

Southern Cross (New Zealand.) Large red early. (L. 2-12c; 10-50c) (M. 10-25c).

In selling Glads, you'll take no loss,
If you will grow some Southern Cross.

Star of Bethlehem (Pf.) Big pure white similar to Maid of Orleans, but larger. (L. 2-14c; 10-60c) (M. 3-10c; 10-30c).

Stella Antisdale (Evans.) New prize winning exhibition, light pink, a bit of cream in throat. 7 to 9 large blooms open. Long flower head. Good spike. (L. Each, \$2.00) (M. Each, \$1.50) (S. Each, 75c).

Sweetheart (Prestgard.) Lovely white with pink edges. Well named. EARLY. (L. 2-12c; 10-50c) (M. 3-10c; 10-25c).

If stunning beauty you would find,
Then cut some Sweetheart, all one kind.

Taiaroa (New Zealand.) Salmon-pink, flaked slate with purple blotch. Immense exhibition Glad. (L. 2-14c; 10-60c) (M. 3-12c; 10-35c).

Takina (New Zealand.) Massive. Rosaline purple. (L. 2-14c; 10-60c) (M. 3-12c; 10-35c).

Takina came from "way down under."
It makes you stop and look, and wonder.

Timbuctoo (Zimmer.) Early dark rose-red. (L. 40c; 3-90c) (M. 25c; 3-60c) (S. 15c; 3-40c).

Tunia's Triumph (Both.) New giant exhibition salmon-red. Many large blooms open. (L. 25c; 3-60c; 10-\$2.00) (M. 15c; 2-25c; 10-\$1.20) (S. 10c; 3-25c; 10-80c).

Uncas (Webster.) Deep coppery orange. 8 large blooms open. (L. 15c; 2-25c; 10-\$1.20) (M. 10c; 3-25c; 10-80c) (S. 2-12c; 10-50c) (Blts. 25-15c).

Vagabond Prince (Palmer.) Bronze-red, with rich orange-red blotches. (L. 2-14c; 10-60c) (M. 3-10c; 10-30c) (S. 10-20c).

Valeria (Pruitt.) A very unusual soft shade of red. (L. 20c; 3-50c; 10-\$1.60) (M. 15c; 2-25c; 10-\$1.20). Scarce. No lower rates on larger lots.

Vista Bonita (Ellis.) Immense geranium pink. (L. 30c; 3-75c; 10-\$2.40) (M. 15c; 2-25c; 10-\$1.00).

Wasaga (Palmer.) Clear buff, ruffled. (L. 2-12c; 10-50c) (M. 3-10c; 10-25c) (S. 10-15c).

Wasaga's color can't be beat,
That Glad looks good enough to eat.

Whero (New Zealand.) Immense scarlet-red. (L. 10c; 10-70c) (M. 2-10c; 10-40c).

White Spire (Kinyon.) Massive blooms of white. (L. 50c; 3-\$1.20) (M. 30c; 3-75c) (S. 20c; 3-50c).

Zuni (Mitsch.) Some experts say this is today the world's No. 1 Smoky Glad. A rich, sparkling silvery-rose, lit by a large terra cotta throat. (L. 15c; 2-25c; 10-\$1.20) (M. 2-14c; 10-60c) (S. 3-10c; 10-30c) (Blts. 40-25c; 100-50c).

Tall Zuni now brings up the rear.
Loud praise for it is all we hear.

Exhibition Mixed

Each order mixed from fine named varieties, our selection, none labeled.
(L. 12-50c; 50-\$1.80; 100-\$3.20) (M. 12-25c; 50-\$1.00; 100-\$1.80).

Long Season Mixed

These Long Season MIXTURES are made up of named varieties. The bulbs are also mixed sizes, but kinds not labeled. Many grand varieties seldom, if ever, used in mixtures of any kind.

The bulbs are blooming sizes, from half inch or so up to nearly inch and a half. Bloom a long time.

Glad Gossip Free with Orders

Glad Gossip is now in its eighth edition. Ten thousand copies of 8th edition, and less than 2,000 left. It's a 24-page, handy size. Small type, packed closely, enables me to do a whale of a lot of telling in 24 pages. Something like 13,000 words.

If all the words in all the booklets in all editions were laid end to end—that would be a silly job. But reading the words is a good paying job. **PRICE 10c, OR, FREE WITH A GLAD ORDER OF 50c OR MORE.**

SOIL AFFECTS COLOR OF GLADS

I wonder that more has not been said about this in catalogues and magazines. A bright red Glad may bloom pink, or near-pink, if soil is extremely alkaline.

Soil also affects Glads in other ways. I've grown a variety in one field and wondered why others raved over a variety like that. Then I've planted it in another field, in different kind of soil, and had grand and glorious results.

"Your Subscription Expires"

As the magazines announce, "Your subscription expires with this number."

There is one way to renew your subscription to a magazine. Pay up.

There are two ways to keep yourself in good and regular standing on our mailing list. One is to send an order. The other is to drop us a line asking for catalogues.

We do not expect an order from everyone, every year. No mail order house does. And we are not stingy with catalogues, so long as they last.

We appreciate names sent us by customers and friends. But wish such names "hand picked." Only one, or a few, from any one person. Cannot use long lists. Do not offer any pay or premiums for names. Consider that you do your friend as big a favor as you do us when you have us place a name on our list for "Long's Garden Book."

Salbach's Six Superb New Patented Glads

NOTE. Patented Glads are sold with the understanding that the buyer will not propagate them for sale.

The originator is given the sole right to grow and supply the bulbs to dealers, who must sell at prices named by the originator, to whom the Government has granted the patent. No lower prices by any dealer than given by us. No overcount.

We are permitted, however, to sell both large and medium bulbs at the special GROUP OFFERS. Note the saving. All prepaid.

All six patented Glads are exceedingly noteworthy. Here they are. Descriptions very much "biled down."

CALIFORNIA. "An immense deep geranium pink that is simply breath-taking," says my friend, Carl Salbach. Deeper pink blotch in throat. Early.

KING OF HEARTS. Light coral-red, with light carmine line in throat. Heavy substance. As many as 8 open at once.

JUNE BRIDE. Clear light yellow, with soft red blotch on lower petals. A very appealing color combination.

HELEN OF TROY. A mammoth apricot and pink blend. Soft light apricot, with smoky blotch of brown, faintly edged scarlet.

SIR GALAHAD. A study in contrast. Soft creamy yellow, with diamond-shaped blotch of rich crimson in a deep creamy throat.

GRAND OPERA. The color is between La France and geranium pink, soft but very clear in tone. Immense, but not coarse.

SHIRLEY TEMPLE GLAD

Shirley Temple Glad

This grand spike of Shirley Temple was grown from one of our No. 2 size bulbs, by Mr. W. W. Kurtz, Grand Rapids, Minn. Snapshot taken in garden, before spike was cut. Plant was 5 feet, 10 inches tall. Bottom bloom 5½ inches. All buds bloomed out clear to the tip.

A field of our Red Phipps Glad. Great favorite with fans and commercial growers.

To Large Buyers: Growers, dealers and others who can use large quantities of a variety, or a good big order of assorted varieties of Gladiolus bulbs or bulblets, please mail me a definite list of the kinds, sizes and quantities. Will make a special price on the lot, f. o. b. Boulder. This is for large lots. Do not send me lists of a few bulbs of a kind for special quotations.

Bulblets Per Pkt., 100, 1000—Prepaid

The number of bulblets in a packet is based on somewhat less than the 100 price for that variety. Real good values always. The larger the order the more liberal the overcount.

One of Our Fields of Picardy Glads, Grown from Medium and Small Bulbs

Delightful Dahlias for 1941

Some say the Dahlia is for men—
For it all hombres have a yen.
They've worked on color and on size,
So now they have a big surprise.

Types of Dahlia

The **CACTUS** has pointed petals, often the petals rolled or twisted. If petals too broad for Cactus, yet not broad enough for Decorative, then we call this the **HYBRID CACTUS** type. The **DECORATIVE** type has broad, flat petals and many of them. The **SHOW** type has quilled petals, making a ball-shaped or nearly ball-shaped blossom.

Dahlia Specials

Any **FOUR** 30c kinds for \$1.00. Additional 30c kinds at 25c each.

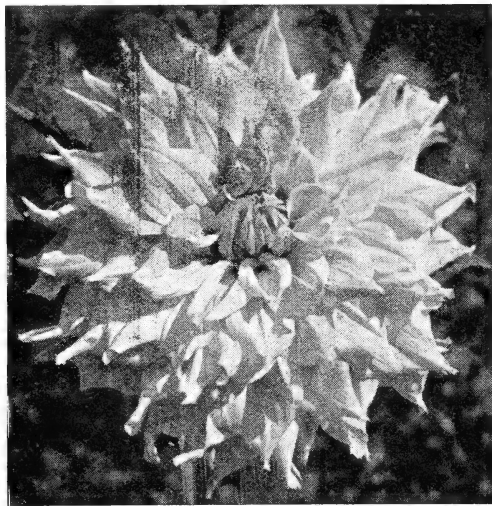

Any **THREE** 40c kinds for \$1.00. Additional 40c kinds at 30c each.

Any **THREE** 50c kinds for \$1.20. Additional 50c kinds at 40c each.

Any **TWO** 75c kinds for \$1.20. Additional 75c kinds at 60c each.

Any **TWO** \$1.00 kinds for \$1.50. Additional \$1.00 kinds at 75c each.

ANY TWO \$1.50 kinds for \$2.50.

Margaret Woodrow Wilson—Decorative

Superb Named Dahlias

All Dahlias Priced Prepaid
(Prices are for Divisions)

Avalon (Dec.) Pure, clear yellow flowers of immense size. Stems long, and so strong that the big blooms are held in ideal position. Fine cutting variety. Each 30c.

Brockton Beauty (Dec.) Pure white orchid-violet tips. Lovely combination. Long stiff stems. 30c.

California Idol This mammoth decorative yellow combines all the virtues of a first-class modern dahlia. Color, clear lemon yellow, borne on exceptionally long, erect stems. Flowers open slowly and remain in prime condition for a full week. 75c.

Cavalcade (Dec.) A fine large decorative. The formation and stem are similar to Jersey's Beauty. Color deep rich rose with tones of rosy magenta. Each 75c.

Catherine Alexander (Semi-Cactus) Large coral-salmon with long stiff stems. Ideal for cutting. 50c.

City of Cleveland (Informal Dec.) Unusual, russet red. Excellent. Good growing habits and it produces many flowers. Each 50c.

"Dee-lighted" (Show.) Pure white. Largest of show dahlias. Each 30c.

Elkridge (Dec.) A superb white. Stems long and erect. Flower large. An ideal white for cutting. Each 50c.

Fireman (Informal Dec.) This sensational red Dahlia carried off the American Home Achievement Medal as the best undisminated variety at Boston. The color is a flashy cardinal red with gold flushes and golden tips. Flowers are large, and are held high above the foliage on long stiff stems. A strong grower and prolific bloomer. Each 50c.

Gero's Pink (Show.) Rich pink, beautifully quilled. Each 30c.

Helen Hollis (Show.) Beautifully quilled, bright red. Each 30c.

Jane Cowl (Dec.) A massive decorative with petals curled and twisted. Color, a glistening bronzy buff and old gold. Deeper toward center. Each 30c.

Jersey's Beauty (Dec.) Beautiful pink, excellent stem, fine keeping qualities. Each 30c.

J. K. Alexander, Jr. Mammoth Semi-Cactus. Rich deep crimson. Long, cane-like stems. Largest of its color. \$1.00.

Kemp's Violet Wonder (Decorative.) A large, well-formed flower. Good stems and habit. Color, rich violet purple. Each 50c.

Lord of Autumn (Dec.) (Almy.) The super Dahlia in the yellow class. Has been grown 11 to 12 inches, and 7 inches deep. Each 75c.

Man o' War (Informal Dec.) One of the most pleasing "reds" in the garden because of its good habits of growth, fine stem and numerous large flowers. Rich dark carmine. Each 75c.

Margaret Woodrow Wilson

An exhibition dahlia of immense size and wondrous beauty. Color, an opalescent pink. Good grower. Profuse bloomer. Each 30c.

Monarch of the East (Dec.) The "surprise" new Dahlia. I hesitate to tell you how large this has actually been grown for shows, so will say it's a whale of a dahlia, and let it go at that.

Beautiful coppery gold, with red suffusion on lower half of many petals. Sturdy plant, strong stems. Each 75c.

Mrs. Ida De Ver Warner (Dec.) Exquisite soft orchid. Very large. Splendid for cutting. Each 30c.

Rosa Nell (Dec.) Pure, bright rose. Immense flowers. Each 30c.

Roycroft

Finest bright cinnamon Cactus, with long stiff stems. A giant. 40c.

Ruth Vaughan (Dec.) Similar to Jersey's Beauty. Clear La France pink, shading to yellow at base of petals. Heavy bloomer. 50c.

Satan (Hybrid Cactus.) A giant red that is sometimes tipped with gold. Unusually strong plant growth with fine stems. Each 75c.

The Commodore (Dec.) Very large loose petaled lemon yellow, overlaid with golden sheen. Each 30c.

White Wonder (Hybrid Cactus.) Flowers very large on fine stems, pure white and of good substance. Each 30c.

Yankee King Decorative, reverse Carnelian red. Informal. shaded mallow purple. 30c.

Lost Label Dahlias All good kinds, but labels lost in handling or storing. Or same may be from stocks we have in large supply and labeled. Special price, NONE labeled, our selection of kinds: 5 for \$1.00; 10 for \$2.00.

Dahlia Don'ts

Don't plant the whole clump that you dug up last fall. Divide it so as to leave an eye or two on each tuber. The eyes are located near where the tubers join the base of stalk, and nowhere else. Not like potatoes, that have eyes other places than the one end.

Don't plant tuber in upright position. Lay it flat instead. Cover about 4 inches.

Don't plant before ground warms up. Gladiolus bulbs may be planted very early, but dahlias are much more tender. In our section we plant from about April 20th to middle of June. May best month in most places.

Don't break your back storing all the dirt that comes up with clump of dahlia tubers or burying them in sand or soil, unless you crave exercise.

Don't handle clumps roughly when digging and storing the roots, lest you break the necks of tubers. A tuber with a broken neck is about as useful as you would be in same fix.

Don't cut Dahlia blossoms during heat of the day. Early morning or evening better.

Don't set Dahlia bouquets in a warm room or in a draft. First, stand the stems in a pail or jar of water so deep as to emerge all but the blooms. Give the cut stems and blossoms a good drink (several hours or longer) before putting them into vases. Dash the backs of the blossoms in vase with cool water every few hours. This can be done with your hand, or a small sprayer. Will help lots to prevent blooms from wilting.

A lot more "DAHLIA DON'TS" will be sent free with each Dahlia order.

Darling Pompons

CUTE LITTLE DAHLIAS

Pompons are the show or quilled type. Some blossoms are almost as round as a ball. The charm of these Pompon, Lilliput, Pewee or Midget Dahlias is due to their being small, prim and precise. Instead of big, careless and informal.

Pompons measure only 2 inches or less in diameter. Don't enrich the soil for pompons. Work for size of bloom on your mammoth varieties, but keep the Pompons small and "just as sweet as they are."

Pompons "bloom and bloom and bloom." They are the answer to the question, "Why don't Dahlias last longer in bouquets?" Well, Pompons DO last longer. And such charming bouquets as they make!

CARDINAL. Fine bright cardinal red.

DARKNESS. Rich dark red or maroon.

DEW DROP. Light pink, edged darker.

GIRLIE. Lovely pinkish mauve color.

GOLDLOCKS. Gold, deepening at center.

HONEY. Fine light yellow, tipped red.

JESSICA. Yellow, tipped red.

JOE FETTIE. Pure white. Excellent.

LITTLE EDITH. Primrose, tipped carmine.

LITTLE HERMAN. Dark red, tipped white.

MOSE WILMOTH. Rose pink. Fine form.

YELLOW GEM. Best pure yellow Pom.

LITTLE WHITE FEATHER. A W. W. Wilmore novelty. Pure white. The petals are so arranged as to suggest a fluffy arrangement of white feathers. Stems extra long and straight. This novelty is a perfect miniature both as to form and size.

Head Lettuce, Prepaid

TO MAKE HEAD LETTUCE HEAD

Lettuce will seldom head in hot weather, unless grown in shade. It is a cool weather plant, doing best very early in spring, or late in fall, as head lettuce. Sowing head lettuce seed late in fall, just before ground freezes, is one good way to get an early start the next spring.

Prices: All varieties LETTUCE: LARGE Pkt. 5c; Oz. 10c.

Hanson Good heading variety. Good also as leaf lettuce.

Iceberg Similar to Hanson. Crisp and tender. Fine for home gardens.

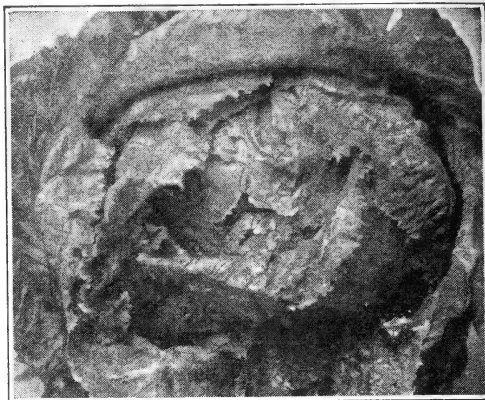

Prize Head Leaves crimped; tinged brownish-red.

Onion Sets

All our Onion Sets are Colorado grown. **VERY** solid, clean and uniform. Best in the world. (Write for prices on larger lots.)

Large Dry Onions for fall and winter use are easily raised from sets. Costs more to plant than seed, but returns are quicker, and most of the tedious hand labor of thinning and weeding is avoided.

Use the smaller sets for growing large bulbs. Plant hazel or tiny size, not the larger unless you have to. Smaller sets are cheaper even at higher price per quart, and make better matured dry onions. Larger or Regular Sets O. K. for green onions and come a little quicker.

Hazel Size Sets

Hazels are like other bottom sets but run smaller. The smaller size not only gives you about twice as many sets to the quart as ordinary sets, but also gives you a better set, for this reason: Many larger sets will send up a seed stalk, which causes a hard, woody center.

But Hazel Size Sets rarely produce seed stalks. They make the finest green onions and the best of matured bulbs, and the crop is ready for market before onions from seed come in.

Edible Pod Dwarf Gray Sugar. Pods as well as peas are cooked, like snap beans. Pkt. 5c; ½ lb. 18c; lb. 35c.

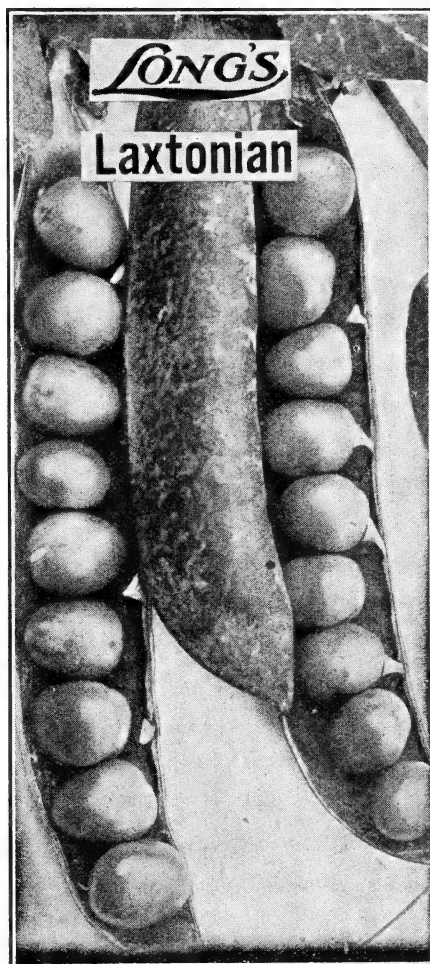

Everbearing (Bliss.) An old time late sort. (Stridah is ever so much better.) Pkt. 5c; ½ lb. 18c; lb. 35c; 3 lbs. 65c; 3 lbs. 90c.

Large, Luscious Laxtonian

This big variety is as early as the small American Wonder. Pods long, vines short. Peas are large, wrinkled, sweet, 7 to 10 in a pod. Require no staking. Peas easily gathered by the handful, and shelling of a mess is a short job, on account of size of pods and peas. Improved strain. Extra fine. Large pkt. 10c; ½ lb. 18c; lb. 35c; 3 lbs. 60c; 3 lbs. 80c.

Little Marvel Early; vine short; pods not large, but always packed tight. Large pkt. 10c; ½ lb. 18c; lb. 30c; 2 lbs. 55c; 3 lbs. 80c.

Stridah A wonderful new second early, medium vines, giant pods, filled with large peas of splendid flavor. Plant and see what you discover. Large pkt. 10c; ½ lb. 18c; lb. 35c; 2 lbs. 65c; 3 lbs. 90c.

Because of this these kinds are valuable. They deliver the goods early. But the wrinkled kinds—Laxtonian, Marvel, Stridah, Alderman, etc.—in fact, all the others in my list, are sweeter and should be planted a little later.

Peas thrive best in the cooler early months of the season, and do not do very well from late plantings. Beans like hot weather but peas prefer it cooler. So plant liberally early in spring. Sow rather thick, using a pound to about 75 feet of row.

SONG'S Long Season Pea Collection

Plant these all same time, early spring best, and you will have a succession of luscious green peas for weeks.

½ lb. Alaska	\$0.15
1 lb. Laxtonian35
1 lb. Little Marvel30
½ lb. Dwarf Telephone18
½ lb. Stridah18
½ lb. Alderman18

Total value.....\$1.34

SPECIAL PRICE: \$1.00 FOR ALL

All Collections Prepaid

To prolong the season still more, plant Alaska and Laxtonian first and early. In week or so plant Everbearing and Dwarf Telephone. Then a week or 10 days later plant Stridah and Alderman. Don't hold any until late in spring. Peas do best if planted rather early.

Peppers

Prepaid

Culture: Sow $\frac{1}{4}$ in. deep in hotbed or shallow boxes. Follow same suggestions given above for tomatoes. Peppers will not germinate if ground is cold. Plants tender. Set out 12x24 inches, after late frosts.

RUBY KING. Large sweet pepper. Pkt. 5c; $\frac{1}{2}$ oz. 25c; oz. 40c.

CHINESE GIANT. Larger than Ruby King. Mild. Pkt. 10c; $\frac{1}{2}$ oz. 15c; oz. 25c.

LONG RED CAYENNE. Pkt. 5c; $\frac{1}{2}$ oz. 20c; oz. 40c. "Full of pep."

RED CHILI. Small, red, very hot. Pkt. 5c; $\frac{1}{2}$ oz. 20c; oz. 40c.

PIMIENTO. Mildest of all peppers. Pkt. 10c; $\frac{1}{2}$ oz. 25c; oz. 45c.

NEAPOLITAN. Early. Fruit grow upright. Pkt. 5c; $\frac{1}{2}$ oz. 20c; oz. 40c.

HARRIS EARLY GIANT. Earliest of all giant peppers. Enormous fruits nearly 5 inches high and $3\frac{1}{2}$ inches through. Valuable for home or market. Pkt. 10c; $\frac{1}{2}$ oz. 15c; oz. 25c; $\frac{1}{4}$ lb. 75c.

WORLD BEATER. A cross between Chinese Giant and Ruby King, having earliness of latter and size of the former. Flesh thick and mild. Very productive. Pkt. 10c; $\frac{1}{2}$ oz. 15c; oz. 25c; $\frac{1}{4}$ lb. 75c.

CALIFORNIA WONDER. Similar to Chinese Giant, with remarkably crisp, tender and sweet flesh. Shape uniformly good. Not lopsided. Base level. Ideal for stuffing. A real wonder. Pkt. 10c; $\frac{1}{2}$ oz. 15c; oz. 25c; $\frac{1}{4}$ lb. 75c.

Rhubarb, Pie Plant

Sow the seed in spring, and transplant where wanted the following spring. Pkt. 5c; oz. 20c.

Pumpkins, Prepaid

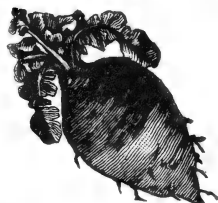

Small Sugar The good old yellow pie pumpkin. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 55c.

Large Field Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 20c; lb. 50c.

King of Mammoths Largest of all pumpkins, yet good for pies as well as for stock. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 30c; lb. 80c.

Best Rutabaga

Prepaid

A.M. PURPLE TOP. Color purple above and yellow under the ground. Flesh yellow and solid; few leaves and small neck. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 70c; 2 lbs. \$1.20.

Rutabagas require longer to mature a crop than is needed for turnips. Better plant rutabagas before July 1st most sections. But turnips may be sown from early spring until August. Keep fresh supply coming.

And grows like sixty when it rains.

Swiss Chard

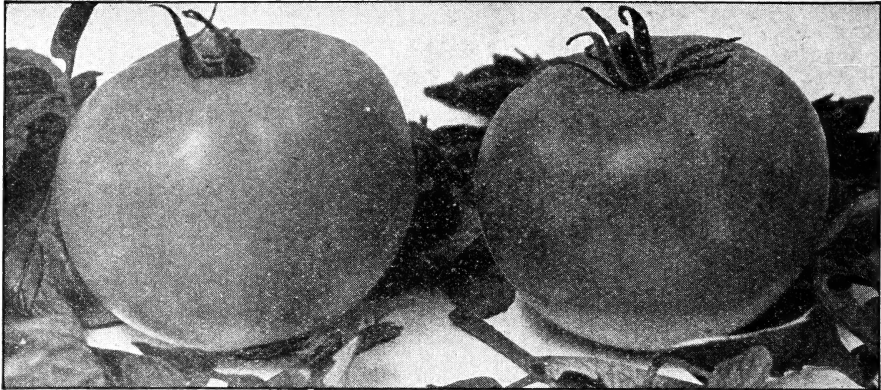

SWISS CHARD—Alias Spinach Beet, Asparagus Beet, "Chicken's Delight." Leaves may be cooked for "greens" like spinach. The stalks may be cut lengthwise and crosswise, the quartered pieces then boiled and served in butter or milk dressing like asparagus. Grow plenty and feed surplus to the chickens. They like Swiss Chard and thrive on it. **Don't dig up the root or cut off all the top.** Pull off the outside stalks. Others will keep forming from heart of plant. Large pkt. 5c; oz. 15c; ¼ lb. 35c, prepaid.

Another thing you shouldn't miss,
That's grown and et by sturdy Swiss,
Is Chard so good for folks and chickens.
Its tender stalks grow like the Dickens.

SELECT TOMATOES for Home and Market

PREPAID

Culture: Sow the seed in boxes in the house or in hotbed 6 to 8 weeks before time to set out. **Tomato seed must be kept warm to start it.** (Same with pepper seed.) If come up thick, thin at once. When plants have 5 leaves transplant to shallow boxes or cold frames. Set plants 3 to 4 inches apart. Gradually harden them off by exposing to outdoor air to get stalky, sturdy plants. Set plants deep in garden or field, about 3 feet apart.

The New "Penn State" Tomato—Early, Immense Yields

The New "Penn State"

Very compact growth, due to self-pruning habit, which makes close planting possible. Its fruit, formed in clusters, is a rich scarlet. Foliage covers fruit well.

The shape is almost spherical, the "meat" dark red, with very little core. Few seeds.

Very early. Yield heavy. (Pkt. 10c) (½ oz. 25c) (oz. 45c) (2 oz. 75c) (¼ lb. \$1.25).

Earliana Earliest red. Pkt. 5c; ½ oz. 20c; oz. 35c; ¼ lb. 90c; lb. \$3.50.
Earliana (Special strain.) Seed from finest tomatoes and earliest. Pkt. 10c; ½ oz. 30c; oz. 50c; ¼ lb. \$1.50.

Bonny Best Bright scarlet. Early. Pkt. 5c; ½ oz. 20c; oz. 35c; ¼ lb. \$1.00; lb. \$3.50.

Chalk's Early Jewel Deep red. Pkt. 5c; ½ oz. 25c; oz. 35c; ¼ lb. \$1.00; lb. \$3.50.

Livingston's Beauty Medium size, smooth, prolific, purplish red. Standard main crop variety. Pkt. 10c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.20; lb. \$3.90.

Annual Larkspurs

(sometimes called Annual Delphiniums) have been so much improved the past few years that nothing surpasses them for quick and pleasing results from spring sown seed.

Just sow the seed out in the garden in April or early May. You will have a grand display from midsummer until killing frosts. Thin to 12 inches.

The Tall Annual Larkspurs (3 to 5 feet high) not only brighten up your garden, but are also splendid for cutting. These Larkspurs branch from the base and have very long flower stems.

Here are the newest and most charming of this race of prize-winning Tall Double Annual Larkspurs.

**Field of
Super Majestic
Rose-Pink Larkspur**

Super Majestic Rose-Pink Larkspur

Now can be grown 5 to 6 feet tall. True base branching annual type. The long clean stems bear enormous double rose-pink blossoms. Lovely in garden, and grand for cutting. A Ferry-Morse origination. **Pkt. 15c; 2 Pkts. 25c; ¼ oz. 65c; ½ oz. \$1.00.**
